

ROSIE KOSINSKI

Artist, graphic designer and writer, I diligently pursue my creative trade. I expect nothing short of the highest standards from my process and final product and thrive on a varied diet of ideas. With interpersonal skills refined by positive teamwork experiences, I work well under pressure, consistently meet deadlines and respond quickly to client feedback.

Please contact me for full work experience and references.

- Through Shattered Pencil Studios, I am able to pursue my passion for art and design by making my own work for sale, including three published books, while bringing the ideas of others to visual life. I foster a loyal clientele and communicate clearly, offering quick revisions for infographics, logos, illustrations and custom projects.
- Design original graphics and layout used in promotional material, ad campaigns and animations for Verizon's internal and external distribution. Work within brand parameters while contributing creative direction for new illustrations and copywriting. Work within a team setting to collaborate and grow as individual designers.
- Design and produce graphics for a variety of companies such as restaurants, apartment complexes and schools. Design and print menus, posters, road signs, re-brand newly acquired companies and advise in website development for each company. Same day turnover for multiple projects from concept to printing.
- Sole employee, responsible for client relations, marketing, website design and maintenance, art fair coordination and event planning. Consolidate responsibilities of IT, art researcher and packer. Help produce catalogue and use social media to promote new acquisitions and publications. Work with luxury items valued in the millions.
