

DOMAINE D'EN SEGUR

Name: Le Rose
Vintage: 2014
Appellation: Cotes de Tarn, France
Varietal: Cabernet Sauvignon, Cabernet Franc
Production: 3000 Cases
Farming: Sustainable

VINEYARD

At the vineyard, Domaine D'en Segur listens to the seasons and produces wines for many occasions. The surrounding area is known to be one of the most diverse landscapes in the modern world, making this the home of winemaking throughout the centuries.

WINEMAKER'S NOTES

The vines are cultivated using sustainable agriculture practices to protect the environment. The soil is plowed and the grass is natural. The vines are Guyot and cordon pruning. They are de-budded, the leaves are thinned out and the berries are concentrated with a green harvest.

VITICULTURE & WINEMAKING

The vinification cellar is equipped with stainless steel vats. We have a capacity of more than 3000hl. All tanks are computer-temperature controlled with focus especially during fermentation to control extraction and preserve acidity.

In this modern winery, winemaking is traditionally about respecting the grapes we grow. This rose is fermented and aged in stainless steel (INOX) tanks

Density: 4,000 vines/hectare
Soil: lime clay and quartz
Yields: 40hl/ha
Harvest: Hand and Mechanical
Alcohol: 13%

TASTING NOTES

Delicate and subtly creamy, with dainty red fruits on the nose, which become even juicier in the mouth, increasing the wine's appeal. Forward and fresh with violet and strawberry.
