

Egg Carton Mushrooms

Instructions

Materials Needed:

- Egg Carton
- Scissors
- Glue
- Acrylic Paint
- Paint Brushes
- Construction Paper

Step 1: Using a string dipped in paint or just a paintbrush, paint mycelium threads on your paper background.

Step 2: While your background dries, cut out the cap and stalk pieces from the egg carton.

Step 3: Make fringe out of construction paper and glue it to the inside of the cap to make the gills.

Step 4: Glue the cap onto the stalk and let dry.

Step 5: Paint the mushrooms and let dry.

Step 6: Glue mushrooms onto the mycelium threads (the background). Add final touches, like googly eyes.

Please submit your finished mushrooms by emailing Jaclyn!
