1:30-2:30 Blood Assays  
2:30-3:30 VacuOzone Principle and Demonstrations  
3:30-5:00 Practical Applications

## **Why you should attend this workshop....**

This course is very unique and easy to understand. By attending the course you will learn how to do Multipass Blood Ozone Therapy. After the course you will be able to do 5 pass, 10 pass easily and safely.

There is no other course like this that can teach this method. The concept of Multipass Ozone Blood Therapies are formed by Ruhi Cakir MD.

Ruhi Cakir MD, is well reknown European Ozone Therapy expert and known as good teacher with superb reviews

The cost of the course is very reasonable that it is even less than one session of 10 pass therapy charge.

The information will be passed in a very practical way that everyone can easily understand.

The MOT is very safe and you can learn this method ONLY by attending this course.

Also you can learn how to monitor the patients in Ozone Therapy and how to modify the doses in your therapies.

To do this MOT method you do not need to invest much money in devices and learning. By learning this method from Dr Cakir you will be ahead of many other health professionals who are considering adding this technology.
