COMMUNITY HOUSING PARTNERSHIP

It is reliably estimated that 1,400 to 1,700 people in Ottawa County experienced homelessness at some point during the past year. Over 300 individuals are homeless living in a shelter, in other temporary housing, or sleeping in tents or cars on most nights throughout the year. For over fifteen years, the CHIP program has been providing transitional housing and a broad range of supportive services to approximately 120 people each year, with the goal of ending their episode of homelessness and helping them to achieve housing and financial stability for the future. Over half of those served by the CHIP program are children. Community Action House and Good Samaritan Ministries, along with area churches and other community partners, have been collaborating on this successful project since 1993.
