

Multi award winning beauty salon providing ultimate luxury treatments in the ultimate luxury setting. We are proud to offer a wide range of treatments to the highest standard, going that extra mile to ensure you feel totally relaxed from the minute you walk through our door.

Gift cards are available for your chosen treatment or amount, and are valid for six months from date of purchase. Gift cards cannot be refunded, but any treatments can be swapped, with notice, to other treatments or products if preferred - just let us know what you would like instead and we can settle the difference at your appointment, if needed.

Treatments exceeding 2 hours may require a booking fee to secure the appointments, which will be deducted from the final bill on the day.

Booking fees are non-refundable and non-transferable within 24 hours of your appointment.

We would greatly appreciate 24 hours notice for cancellations, rescheduled and amended appointments, otherwise a 50% charge will be incurred. A 100% charge will be incurred for appointments missed entirely without notice.

Children under the age of 16 must be accompanied by a parent or guardian at all times.

We politely ask all clients to switch their mobile phones and tablets to silent whilst in the salon, to promote a relaxing atmosphere for other paying clients.

MICRODERMABRASION & NON-SURGICAL FACELIFT

DermaCo Pro System

The DermaCo Pro unit is a 6-in-1 system which enables the therapist to personalise each treatment to the individual, using a combination of different technologies:

Thermotherapy - Increases blood flow, opens the pores, relaxes collagen tissue and reduces inflammation.

Microdermabrasion - A mechanical exfoliation that gradually removes the top three layers of the epidermis, painlessly and safely.

Micro-current - Non-Surgical Facelift treatment to reduce the appearance of fine lines and wrinkles and will tone and firm muscle fibre.

Ultrasound - Tightens and smooths skin by increasing cell regeneration, collagen production and the removal of fine lines and wrinkles.

LED Light Therapy - Using red, blue, green and yellow light to treat various skin conditions including problematic acne, irritated and sensitised skin and ageing.

Cryotherapy - Slows down cellular metabolism to allow the Ultrasound procedure to work more effectively. Closes the pores to avoid contamination and soothes the skin.
