

## Learning

Creating or contributing to a classroom where the acquisition of knowledge, discussion and debate takes place, understanding the difference between working and learning, keeping class time valuable, demonstrating a willingness to learn outside the classroom

## Service

Doing things for others, especially those less fortunate

## Kindness

Looking out for each other and supporting, understanding, and appreciating each person's uniqueness, accepting their strengths and weaknesses as a person

## Excellence

Striving for excellence, always doing your own work, actively participating in your community, challenging yourself, being honest, setting high expectations and holding others to them

## Investment

Taking part in community events—as an active participant or a spectator, providing service to the community, taking pride in the community

## Team Play

Participating as a positive member of your group or team, asking for help or support when needed, putting the group's needs before your own, appreciating other cultures and customs, maintaining an open mind

## Intellectual Curiosity

Following your own curiosity about the world, pursuing your own interests with dedication and balance, asking honest questions and giving honest answers, sharing what you have learned with others

## Responsibility

Being accountable for your actions, demonstrating the understanding of your own value as a student, teacher, community member, and citizen, honoring your commitments
