

<b>Energy Category:</b>		
<b>Title:</b>	<b>Abstract #:</b>	
<b>Reviewer Name:</b>		
<b>Circle One</b>		
<b>Minimum Qualifications: (must answer yes to all questions to proceed)</b>		
1. Is the research related to energy?	Yes / No	
2. Is the research original?	Yes / No	
3. Is the abstract free of blatant inaccuracies?	Yes / No	
4. Is there evidence that results are available or will be by the time of the competition?	Yes / No	
<b>A. Subject Matter (On a scale of 0 to 10, Maximum: 60 pts)</b>		
	Value	Score
1. Is the research a significant contribution to the energy field?	0-10	_____
2. Was the approach to the research		
A. Logical and systematic?	0-10	_____
B. Original?	0-10	_____
3. Is there evidence of a detailed literature survey, development of complex computer program, extensive laboratory work, or other effort of comparable magnitude?	0-10	_____
4. Is there evidence that the student knows his subject?	0-10	_____
5. Does the student deserve extra points for undertaking a complex problem?	0-10	_____
<b>B. Clarity of Communication (Maximum: 40 points)</b>		
At the conclusion of the abstract did you know:		
1. What the problem was?	10	_____
2. How the problem was solved?	10	_____
3. What the conclusions were?	10	_____
4. What the significance of the results was?	10	_____
<b>Total</b>		<b>_____ /100</b>
