June 3 – June 26, 2016

Preview: June 1 - 2, 11 – 6pm

## **HOME IS WHERE THE ART IS**

By Linda Bankerd

**Opening Reception:  
Friday, June 3, 6-8:30 pm**

Home, our private place of refuge, succor and contentment. Linda Bankerd's lush interiors reveal joyful inside scapes, boldly colorful and bursting with energy. An interior designer would most probably NOT come up with designs such as these, but these fanciful interiors when hung in your home will certainly add that necessary zing and focus to any conventionally conceived interior. Bankerd's indoor retreats are emotionally satisfying and wonderful to look at, but actually living in her conceptualized reality is probably not an option that most of us would choose.

Linda paints in acrylic with the occasional addition of collage. Oil pastels often add a linear element. She creates her personal heartfelt reality from interiors where she has resided, from photographs of commercial interiors, or from arranged studies of actual furniture and furnishings.
