OUR STORY

The owner of Stuffed, is a lifetime resident of Montclair, New Jersey and graduate of Montclair High School who wanted to bring high quality food to his home town in a fun and friendly atmosphere.

We elevated the classic American Burger using grass fed beef and homemade compliments. All of our meat is antibiotic and hormone free and 100% grass fed.

One of our main goals as a business is to not only serve you great burgers, but great quality as well. 100% grass fed products means the cows, bison, lamb, etc. have been fed a natural grass diet their *entire* lives.

Why does this matter?

A lot of the meat many of us grew up eating, came from grain fed animals. Meaning they were fed mostly corn products, if not worse!

To counteract the unnatural way those animals were fed, they are given a great deal of antibiotics. All of this to make the animals yield more product at much worse quality.
