

## Bladder Health Awareness Local Event Hosting Form

The Bladder Health Awareness Local Events are happening across the country to raise awareness about bladder health, debunk common misconceptions and concerns that arise as women age, and provide innovative treatment options for bladder and pelvic health issues. The purpose of the event is to encourage individuals seek medical advice from a specialist regarding their condition and treatment options. An event toolkit has been created to assist individuals in hosting their own local events. This form will be used to help promote your local event.

Please complete this form and return to Elaine McInnis at [emcinnis@nafc.org](mailto:emcinnis@nafc.org).
