Anna Borgström is CEO of NetClean, a Swedish company that offers premium technology that fights the dissemination of online child sexual abuse material. She has worked with organisations and governments worldwide since 2009 to combat online child sexual exploitation through introducing and lobbying for the uptake of new and leading technical solutions, which work to save children from harm.

Anna is also a member of the Safer Society Group management team, which develops and drives companies that specialise in technology with the aim of creating a better and safer society by tackling societal problems through IT-solutions. NetClean is one of Safer Society Group’s subsidiaries. Its mission is to limit victimisation and prevent further suffering to victims of child sexual abuse, and to enable a brighter future for abused and exploited children.

Anna has studied Computer Science and Economics and has worked with innovative solutions within the Telco and IT industry for 20 years. She has throughout her career built her leadership skills with the aid of distinctive leadership programs, and she possesses extensive international experience from sales and business development within B2B. She has managed large cross-cultural customer projects with cross-border complexity, and secured quality and delivery to international telecom operators, multinational companies and government organisations.

NetClean was one of the first social entrepreneurial businesses in Sweden, and as one of the early employees Anna has had a significant impact on the company’s success and growth. Making a difference through combining social responsibility, ethically sustainable businesses and technology is something that drives Anna and her commitment to the industry.

As a former professional female football player and with her long career in the male-dominated Telco and IT industry, Anna understands the importance of empowering girls and young women. She is very involved in Tölö IF, the largest youth football club in western Sweden, where she has been a member of the board. She
has taken on a specific responsibility to develop strategies to create a positive sporting environment where children between ages 8-15 can feel safe, enjoy themselves and develop, both as football players and as individuals. She is also one of the coaches for girls born in 2005.

In her leisure time, Anna enjoys spending time with her husband and two daughters. She has an interest in health and likes to spend time outdoors photographing nature. Yoga is also one of her passions.

Christoffer works as chief psychiatrist at Psychiatry South Stockholm, Sweden. He received his Ph.D from the Department of Clinical Neuroscience, Karolinska Institutet, Stockholm, in 2013. Christoffer was a postdoctoral researcher at Melbourne Neuropsychiatry Center, University of Melbourne, Australia, 2014-2015. He’s now the Principal Investigator of Priotab and Prevent-IT, two academically initiated clinical trials at Karolinska University Hospital, Stockholm, on pharmaceutical and psychotherapeutical methods to reduce the risk of men with pedophilia committing child sexual abuse. Christoffer is lecturer in psychiatry and the author of Neurovetenskaplig Psykiatri (Natur och Kultur, 2018), an award winning textbook in Swedish on neuroscientific psychiatry.
Angela Diaz, MD, PhD, MPH is the Jean C. and James W. Crystal Professor of Pediatrics and Environmental Medicine and Public Health at the Icahn School of Medicine at Mount Sinai. As Director of the Mount Sinai Adolescent Health Center, a unique program that provides comprehensive, integrated, interdisciplinary primary care, sexual and reproductive health, mental health, dental, optical and health education services to adolescents for free with an emphasis on wellness and prevention.

Under her leadership, the Center is the largest adolescent specific health center in the U.S., serving yearly more than 12,000 vulnerable and disadvantaged youth, including sexually exploited and trafficked youth.

Dr. Diaz served as a White House Fellow in 1995, where she examined health care policies in the U.S. Territories in the Pacific and the Caribbean. She has been involved in issues of international health, as well as advocacy issues and policy in the U.S. Her research has covered adolescent sexual and reproductive health, teen pregnancy prevention and childhood abuse and neglect. Dr. Diaz is a member of the Institute of Medicine and served on the IOM Committee on Preventive Services for Women.

Marion White, Senior Program Director, founded the Child Abuse Prevention Program (CAPP) in 1986 and is responsible for the program’s content and implementation. Ms. White has lectured on child abuse to law enforcement groups, legislative bodies, and other child welfare organizations nationwide. She received the Excellence in Prevention Award from Prevent Child Abuse New York State and special recognition from the Special Victims Unit of the NYPD, the American Probation and Parole Association and the NYC Administration For Children. She is a Governor’s appointee to the New York Citizen’s Review Panel for Child Protective Services. She holds a master’s degree in Developmental Disabilities from Long Island University.
Trevor Raushi, M.S., is the Program Coordinator of the New York Foundling’s Child Abuse Prevention Program (CAPP). He earned a B.A. in Sociology with a minor in LGBTQ Studies from Syracuse University and a M.S. in Cultural Foundations of Education from Syracuse University. Prior to working with CAPP, Trevor worked with the Queering Education Research Institute where he focused on the implementation of anti-bullying and harassment policies in New York State schools.

Jennifer Thompson is the Executive Director of the New Jersey Chapter of the National Association of Social Workers. She graduated from Kansas State University with a B.S. in Social Work and obtained her MSW from Columbia University in 2005. Ms. Thompson has worked in the nonprofit and public sector for more than a decade, serving in programmatic, advocacy and management roles. She began her career at the NYC Taxi & Limousine Commission and served as a Sr. Adviser to Mayor Michael Bloomberg on a number of citywide initiatives including homeless services, affordable housing, transportation and infrastructure. In the nonprofit sector, she developed programs funded by the Centers for Disease Control and Prevention for young breast cancer survivors at Sharsheret, and most recently was the Chief Marketing & Communications Officer for Girl Scouts, where she led advocacy initiatives that included a collaboration with the office of the First Lady, Michelle Obama, and her initiative, Let Girls Learn. Ms. Thompson is passionate about advocating for social workers in both traditional and non-traditional roles throughout New Jersey. She resides in Bound Brook with her husband and son. When she is not advocating for the profession, she is active in her community, serving on a number of committees and volunteering at her son's school.
Gabriel J.X. Dance is the deputy investigations editor at The New York Times where he works with a small team investigating all things technology – from online child sexual abuse imagery to the companies that trade and sell our data. Previous to The Times, he was a founding managing editor at The Marshall Project where his work focused on the criminal justice system and the death penalty in particular. Before that, he was interactive editor for The Guardian, where he was part of a group of journalists who won the 2014 Pulitzer Prize for public service for coverage of widespread secret surveillance by the N.S.A.

Michael H. Keller is a reporter and data journalist specializing in technology on the investigative team. Before joining The Times, he worked at Bloomberg News, Newsweek and was a fellow at the Tow Center for Digital Journalism at Columbia University.
Dr. Ramatu Bangura is currently the Program Director for Wellspring Philanthropic Fund’s Children’s Rights Innovation Fund (CRIF), which is being housed and staffed at Tides Center. Ramatu previously served as a Program Officer for the NoVo Foundation’s Advancing Adolescent Girls’ Rights initiative where she led strategy development and grant making to advance philanthropy’s largest portfolio working to advance the rights, leadership and well-being of adolescent girls in the United States and in the Global South. Ramatu was responsible for moving $80M of funding to community-based organizations over her 5 years with NoVo. Ramatu has spent the last 25 years working with and on behalf of adolescent girls in New York City, Washington DC, and as a Peace Corps Volunteer in Costa Rica. She has engaged in organizing, advocacy and research on a host of issues impacting transnational girls, including early and forced marriage, sexual violence, trafficking, commercial sexual exploitation, and educational access for English Language Learners.

Ramatu earned both a Masters of Education (EdM) and Doctorate of Education (EdD) in International & Transcultural Studies at Teachers College, Columbia University. Her dissertation, *In Pursuit of Success: The Educational Identities and Decision-making of African Girls with Limited Formal Schooling*, utilized African feminism to examine how immigrant girls with limited formal schooling navigate American schools, and make decisions about college and marriage. Ramatu is committed to decolonizing philanthropic practices to ensure that those most impacted by structural violence and oppression are afforded the tools to create a world where all are safe, seen and celebrated.

Jennifer Hanley is North American Head of Safety at Facebook where she handles safety policy for the U.S. and Canada. She works with internal teams, external partners, and government stakeholders on issues including women’s safety, child safety, bullying, digital well-being, and suicide prevention. Prior to joining Facebook she served as Vice President for Legal and Policy at the Family Online Safety Institute (FOSI) where she directed FOSI’s government outreach and policy strategy. During her time at FOSI, Jennifer built relationships with government officials and external partners, led research projects, and advised leading technology companies on best practices, policy developments, and emerging issues around online safety.

Jennifer is a magna cum laude graduate of the Catholic University of America, Columbus School of Law and is a member of the Maryland Bar and District of Columbia Bar. She previously held internships with FCC Commissioner Michael Copps, EchoStar, Comcast, and the
U.S. Department of Education. Jennifer graduated Phi Beta Kappa and magna cum laude from the George Washington University where she studied political science. She resides in the District of Columbia with her husband, a U.S. Diplomat, and infant son.

As a project specialist for the Family Advocacy Division at the National Center for Missing & Exploited Children (NCMEC), Adrienne manages the Family Advocacy Outreach Network by locating, recruiting, and encouraging child- and family-serving professionals to provide pro bono or sliding scale assistance to the families served by NCMEC. Adrienne also provides families with travel assistance when they are reuniting with their missing children and works closely with other divisions on major projects and initiatives. Additionally, she provides training to mental health professionals, social service agencies, law enforcement, and the community concerning missing and exploited children. Adrienne is a member of the National Coalition to Prevent Child Sexual Abuse and Exploitation and served as co-chair of their Communications Committee from 2017-2019. Prior to working in the Family Advocacy Division, Adrienne was a research analyst in the Analytical Services Division at NCMEC where she completed case comparisons of missing, recovered deceased, and unidentified children for investigations of offenders at the request of law enforcement.

Before joining the National Center for Missing & Exploited Children, Adrienne was a research fellow with the FBI’s Behavioral Analysis Unit 3, Crimes Against Children. While there, she provided operational support and analysis for large-scale active investigations and assisted in the creation of a protocol for use in a study of child pornography offenders. Adrienne has a Master of Arts in forensic psychology from Marymount University, where she is an adjunct faculty member.
Ethan Arenson is the Head of Digital Safety at Verizon. In this role, Ethan leads Verizon’s online safety efforts, including Verizon’s work to fight online child exploitation and the company’s work to promote internet safety through parental education and digital literacy. Ethan is also responsible for content standards across the company.

Ethan previously led the Trust & Safety and Law Enforcement teams at Verizon Media, home to Yahoo and AOL. Prior to joining Verizon, Ethan served as a computer crimes prosecutor at the U.S. Department of Justice, as cyber counsel to U.S. Senator Sheldon Whitehouse, and as a consumer protection attorney focused on internet-based fraud at the Federal Trade Commission. Ethan holds a J.D. from the George Washington University Law School and a B.A. from American University.

Sarah Mower is a Senior Investigator with the E-Crimes Investigations Team at Verizon Media. In this role, Sarah investigates criminal activity utilizing and targeting Verizon Media platforms, including Yahoo and AOL Mail, Yahoo News and HuffPost. The scope of activity investigated includes child safety, tech support fraud, social engineering and account takeover (ATO), spam, financial fraud, harassment and insider threats.

Prior to joining Verizon Media, Sarah was a High Tech Crimes Detective in New Jersey and New York, and focused on computer forensics and Internet Crimes Against Children investigations.
After six years as Microsoft’s (and the technology’s industry’s) first Chief Online Safety Officer, for the past year, Jacqueline Beauchere has served as the company’s Global Digital Safety Advocate. Responsible for various aspects of Microsoft’s online safety strategy and engagement with external audiences, Ms. Beauchere represents the technology industry on the international Policy Board of the WePROTECT Global Alliance; is a member of INHOPE’s Advisory Board, and represents Microsoft as part of the Global Internet Forum to Counter Terrorism (GIFCT). In 2020, Microsoft assumed the chair role of the GIFCT, responsible for ushering that organization into the 2020s and embracing its new independent status as a not-for-profit. She has previously served as Microsoft’s representative to the boards of directors of the National Cyber Security Alliance, the Technology Coalition, the Family Online Safety Institute, as well as the educational taskforce of the European Union’s SELMA (Social and Emotional Learning for Mutual Awareness) project and its Hacking Hate initiative. Ms. Beauchere has spent more than 20 years at Microsoft leading various teams and efforts that evangelize the company’s commitment to safer, more trusted online experiences for people of all ages and technical abilities. Before joining Microsoft, Ms. Beauchere was an attorney in private practice in New Jersey, New York, and Washington, D.C. A second-career lawyer, she spent 12 years as a real-time financial news correspondent and editor-in-charge, primarily with Reuters America, Inc., in New York.

Zoe Darmé is a Business Program Manager with Microsoft, where she focuses on multistakeholder approaches to trust and safety, content governance and moderation, and the overall safety landscape online. Previously, she led the global outreach efforts in support of Facebook’s oversight board. Prior to joining the tech industry, Zoe served in various policy and program capacities with the United Nations’ Department of Peacekeeping Operations. As part of the UN’s peace and security efforts in West Africa and the Great Lakes region, Zoe focused on building the rule of law; managing disarmament, demobilization and reintegration programs for ex-combatants; engaging in security sector reform; and supporting the clearance of mines and other explosive hazards. While Director of Strategic Initiatives at John Jay College for Criminal Justice, Zoe led teams conducting research and providing technical assistance on homicides and gang violence. Previously, she served with the U.S. Department of Justice, where she focused on police and justice system reform. Zoe earned her M.A. from the Johns Hopkins University (Baltimore, MD) and her B.A. from Northwestern
Liz Thomas leads Digital Safety for Microsoft in the Asia Pacific region: coordinating initiatives and strategies related to digital safety across the Asia-Pacific region and supporting work to address illegal and harmful content online, including child sexual exploitation and abuse imagery and terrorist and violent extremist content.

Before joining Microsoft in April 2020, Liz worked as a policy and legal adviser for the New Zealand government, including in the Ministry of Foreign Affairs and Trade, the Department of the Prime Minister and Cabinet, and the New Zealand Treasury. Her areas of focus have included counter-terrorism, international law, and cyber-security policy. Liz graduated from the University of Otago with Bachelor’s degrees in Arts and Law and has a Master’s degree in International Relations from the Australian National University.
At the young age of 14, Daisy was assaulted by her older brother’s friend in Maryville, MO. The perpetrator and his friends coerced her to drink to the point of complete black out, and after the assault left her outside her house in below freezing temperatures. She was then bullied at school, on social media and her house was burned down. Considerable evidence was brought against the perpetrators, but because of suspected corruption, the charges were dropped. The group Anonymous then rallied on her behalf with #JusticeforDaisy and Daisy sparked a national conversation about sexual assault.

Eric Oldenburg is one of Griffeye’s Law Enforcement Liaisons in North America.

He recently retired from the Phoenix Police Department after serving for 24 years. Eric was assigned to the Arizona Internet Crimes Against Children Task Force for 15 years. Eric worked as both an investigator and computer forensic examiner and received his Certified Computer Forensic Examiner (CFCE) certification in 2008 from the International Association of Computer Investigative Specialists (IACIS).

Eric, along with other members of the Arizona ICAC, created a workflow policy for forensic examiners to focus on Victim ID and minimize investigator’s and forensic examiner’s traumatic exposure to child exploitative material, using Project VIC and Griffeye Analyze.
I am a mental health professional; I have been a Crisis Intervention Counselor at Crisis Text Line for nearly 4 years and have been providing several different forms of psychoeducation for over eight years. I hold two Bachelor’s Degrees; Psychology & Philosophy and World Religions from Rowan University, and I am a current Master of Social Work student at Rutgers University, clinical mental health track. I specialize in education and intervention in suicide prevention, and supporting those with autism spectrum disorder and their families. I also have experience as a positive psychology radio DJ.
