Hyperdocs are a great way to package social studies lessons! They give students the time to explore stories, evaluate different media, and respond at their own pace! Hyperdocs work in a traditional class and especially as Learn From Home lessons!

A HyperDoc is a digital document where all components of a learning cycle have been pulled together into one central hub. Within a single document, students are provided with hyperlinks to all of the resources they need to complete that learning cycle (Definition from: Cult of Pedagogy).

Hyperdocs can easily be made in Google Docs, Slides or Drawings OR Microsoft Word & Powerpoint OR Padlet (THIS is a Hyperdoc of sorts!)
