

Wenke-Sunbelt Young Plants 2022

2022 Highlights & Changes

- NEW! Indoor Plant Program – Wenke & Sunbelt Greenhouses are very excited to announce the addition of indoor/foilage liners to our already extensive product line up.
- Continuing to be a one-stop source for liners, specialty plugs & bedding plugs.
- All geranium liners from Wenke Greenhouses will have received one Florel application approximately two weeks prior to shipping. This decision was made in part due to the benefits of Florel treatment, as well as our commitment to maintaining an efficient greenhouse.
- Benefits of Florel are: :
 - Increases lateral branching
 - Prevents flower initiation
 - Inhibits internode elongation
- Hiemalis and Rex Begonias have been given additional grow weeks to ensure on time delivery.
- 128 trays are now sold as 125 at Wenke Greenhouses in an effort to reduce down counted trays.
- Continuing with the 1% discount for the whole program for the entirety of the season. This means regardless of when orders are placed or shipped, they will receive the 1% discount.

Our Team

- Dedicated account management with broad team support. Providing direct points of contact for order fulfillment, customer service, claims, and logistics. All in an effort to deliver the highest level of communication.
