Learn how Unity on the Bay is continuing to care for our shared home

Our Planet Promise

unity on the Bay A positive path for spiritual living
Call us tree huggers

Trees play a vital part in the health of our planet. In 2020 we committed to planting 1 tree for every person who paid to enroll in a class or event. As of April 2023, we are happy to report we’ve planted over 2,500 trees.

We’re working to use less paper to save more trees

- A majority of our marketing efforts are digital, limiting the printing of flyers, postcards or adverts in print.
- If we need to print, we use recycled paper.
- We encourage digital giving for donations, reducing the use of giving envelopes and checks.
- We’re beginning to recycle at our staff offices.

2,500+ TREES already planted
We are Mindful of Mother Earth

It’s not just about the trees.

Here are the other ways we are being mindful about how we treat our shared home creating a healthy environment for all.

- We’ve been reducing gas consumption by offering partial remote work for staff, and online classes and meetings.

- We’re working to eliminate the use of styrofoam even by not purchasing food from vendors who still use it.

- We’re working to end the use of single-use plastics, including plastic water bottles.

- We continue to use bio-degradable cups, plates and utensils at events and gatherings.

- We’re working to purchase earth-friendly materials including cleaning supplies, shirts, light bulbs, and rechargeable batteries.
Looking to our future

Planet Earth is a gift from God and our gratitude for this gift is expressed through how we care for it.

What we are already doing as good stewards is just the beginning. **We will continue to evaluate what we can do in the future to better our shared home...Planet Earth.**

We encourage our community to do your part.
