Sessional Lecturer - MGY277H1F/S: Introduction to Medical Microbiology (ONLINE) – Emergency Posting

Job Field: CUPE 3902 Unit 3
Faculty / Division: Faculty of Medicine
Department: Molecular Genetics
Campus: St. George (downtown Toronto)
Job Posting: May 13, 2020
Job Closing: May 19, 2019, 11:59pm EST

Course number and title: MGY277H1F/S: Introduction to Medical Microbiology (ONLINE) – Emergency Posting

Course description:
An online introductory survey course that explores the agents of infectious disease including bacteria, viruses, and parasites as well as the host immune response. Other topics include the fundamentals of disease diagnosis and epidemiology. This course will use web-based delivery of lectures and tutorials and utilize a range of communication tools equivalent to approximately three lectures per week. The final exam will require student attendance on the St. George campus (may need to be modified in response to the cancellation of in-person classes).

Estimated TA support: 0 TA hours

Estimated course enrolment: Variable 15-200 students

Class schedule: Lectures and tutorials will be given as 2-3hr online videos/week asynchronously

Sessional dates of appointment: (F) May – June 2020; (S) July to August 2020 (60% part-time for 2 terms – F and S)

Salary (60% part-time per term): $4,993.92 for Sessional Lecturer I; $5,217.21 for Sessional Lecturer I Long Term; $5,344.46 for Sessional Lecturer II; $5,471.70 for Sessional Lecturer III, inclusive of vacation pay

Please note that should rates stipulated in the collective agreement vary from rates stated in this posting, the rates stated in the collective agreement shall prevail.

Qualifications:
The applicant must hold an advanced degree (MD or PhD), with education pertaining to infectious diseases. The applicant should have extensive experience in teaching at the University level, either with several years as a teaching assistant or as a lecturer. The applicant should have experience with online teaching, including recording lectures for online delivery and developing and delivering online assessments.
Description of duties:
Develop one of three course assignments. Rearrange course layout in Quercus, transferred from the most recent version of MGY277 that had been developed using previous template. Set due dates to course assignments, quizzes and projects. Create some lecture material.

Application Procedure:
Applications should include a single PDF with the following components in this order: 1) the CUPE 3902 Unit 3 application form, available at: http://forms.hrandequity.utoronto.ca/#employment; 2) a cover letter; and 3) a c.v. that includes evidence of expertise in genome sequencing, analysis, and yeast biology, as well as the name(s) of one or more qualified referees.

Please submit the applications electronically to:
Dr. Leah Cowen
Professor and Chair, Department of Molecular Genetics
mogen.chair@utoronto.ca

This job is posted in accordance with the CUPE 3902 Unit 3 Collective Agreement.

It is understood that some announcements of vacancies are tentative, pending final course determinations and enrolment. Should rates stipulated in the collective agreement vary from rates stated in this posting, the rates stated in the collective agreement shall prevail.

Preference in hiring is given to qualified individuals advanced to the rank of Sessional Lecturer II or Sessional Lecturer III in accordance with Article 14:12 of the CUPE 3902 Unit 3 collective agreement.

Please note: Undergraduate or graduate students and postdoctoral fellows of the University of Toronto are covered by the CUPE 3902 Unit 1 collective agreement rather than the Unit 3 collective agreement, and should not apply for positions posted under the Unit 3 collective agreement.
