LEAD is a project of Minnesota Family Institute
and in partnership with Minnesota Association of
Christian Home Educators (MACHE) and
Christian high schools in Minnesota.
LEAD was a fantastic experience for me. It was an incredible confidence booster. I will always look back on LEAD as something that helped prepare me for life.
- Noah Leraas

tracks:
Every track simulates a part of society to provide a realistic framework for students to apply in-depth worldview training.

Students interact with Christians who are leading in numerous spheres of life, and are coached by experts who play integral roles during the simulation.

HOUSE: Students are sworn in as members of the LEAD House of Representatives and strategize in committee meetings and during the final floor session on Friday. All first-time LEAD students participate in the House Track.

SENATE: 2nd year+ students role-play as senators. They take up more challenging tasks by offering amendments to bills and engaging in open debate.

MEDIA: Students are reporters covering all the highlights of the program week. Their stories are printed in the daily newspaper or biweekly broadcasts. Only upperclassmen or third year alumni are eligible to apply for this advanced track.

Mock Trial: Acting as attorneys, students work with witnesses and prepare cases for mock criminal and civil trials before a jury of peers, and real judges.

Learn more about each track here:

Jack has grown so much as a young man of deep faith and strong leadership skills from your organization. We love what you do!
- Jon and Debbie S.

Every student we have sent to LEAD has not only come back stronger in their faith, but I have seen them maintain that testimony for years. Pastor Dave Clear, First Baptist Church and School, Rosemount MN
