2011 was an exhilarating year for the Women’s Business Enterprise National Council (WBENC) as we continue to progress on the Roadmap to Growth and Sustainability which is empowered by the energy of our “WE ARE WBENC” theme. Along with our new executive leadership, expanding community of over 10,000 WBENC-Certified WBEs and growing corporate and government memberships, we continue to strengthen our position as the leading advocate for and authority on WBEs as suppliers to the nation’s corporations and government entities. WBENC continues to focus on our COR values (Certification, Opportunities, and Recognition) to help our Women Business Enterprises to increase revenue and promote growth among women-owned businesses. In April, we welcomed Pamela Prince-Eason as the new President and CEO of WBENC. I would like to recognize and thank Pam for her outstanding leadership and her approachable style which helps to effectively bring together a complex constituency group to drive results.

Hosted by the Women’s Business Enterprise Council West, the newly renamed WBENC National Conference and Business Fair was a great success, drawing an attendance of over 3,000. The 2011 conference also attracted an unprecedented number of sponsors. More than 100 regional and national Corporate Members, government entities and certified WBEs leveraged their conference participation to increase their visibility by a large and diverse audience.

WBENC’s success relies on the collaborative efforts and commitment of our 252 Corporate and Government Members, 14 Regional Partner Organizations and WBENC Staff, delivering our COR Values to our growing community of WBENC-certified WBEs, which reached 10,228 by the end of the year. It also reflects the innovation, drive and competitive advantages that our WBEs bring as suppliers to their corporate and government partnerships. The new federal contracting program in addition to the appointment of WBENC as a certifying body for Women-Owned Small Business (WOSB) have opened new avenues of growth for WBEs to have greater access to government opportunities. Many extraordinary people are integral to the power of our Regional Partner Organizations and our Women’s Business Enterprises. I would like to thank Geni Swift for her work as Chair of the Leadership Council representing the leaders of our RPOs, and Tara Abraham, Chair of the Women’s Enterprise Leadership Forum representing our WBEs, partnering with our valued Corporate and Government Members, WBENC continues to deliver on our COR values to our constituents with multiple opportunities to connect during both the Summit and Salute and the National Conference and Business Fair. The Multi-Tier Dialogue and Opportunity Connection was introduced in 2011, bringing a new dimension of networking to our corporate members and WBEs.

America’s Top Corporations for WBEs were recognized with immense pride and appreciation. These 29 exceptional corporations support programs that offer equal access and result in a high volume of business with women’s business enterprises. The Awards ceremony was held in March, 2012 at the Landmark Theater in Baltimore, MD. We also acknowledged individual excellence, awarding the William J. Alcorn Leadership Award to Theresa Harrison, Director of Supplier Diversity at Ernst & Young LLP. Named in recognition of the leadership and service of founding WBENC Chair, the William J. Alcorn Award honors a recipient selected by the Chairman of the WBENC Board of Directors, with input from Past Chairs and WBENC Executive Staff.

2011 was a year of new leadership, new certification opportunities and new energy fueling our efforts on behalf of our constituents to achieve the Roadmap to Growth and Sustainability. WE ARE WBENC! A most sincere thank you goes to the WBENC Staff, Board of Directors and leadership committees. Your tireless dedication and efforts are the cornerstone of our success. In particular, I would like to thank Cheryl Stevens, Immediate Past Chair of the WBENC Board, for her leadership and support in my first year as Board Chair.

WBENC’s 2011 Retrospect and Year-End Highlights

WOSB Federal Contracting Program
After the Small Business Administration (SBA) performed a Disparity Study showing Women-Owned small businesses (WOSB) were underrepresented in 83 of the NAICS code subcategories, the WOSB Federal Contracting Program was implemented on Feb. 4, 2011 as a procurement mechanism to ensure WOSBs have equal opportunity to participate in federal contracting. The program allows contracting officers to set aside certain contracts for WOSB competition, if it meets the following criteria:

- The contract has to be in one of the underrepresented industries
- At least 2 or more WOSBs are expected to submit an offer (known as the Rule of 2)
- The anticipated award price does not exceed $6.5M in case of manufacturing contracts and $4M for all other contracts
- The contract will be awarded at a fair and reasonable price.

The SBA is hopeful that this program will help it reach its goal of 23% of federal contracts dollars being spent with small businesses, of which 5% of prime and subcontracting dollars are awarded to Women-Owned small businesses.

2011 The Opportunity Connection

The Opportunity Connection theme, launched in 2010, is based on one of WBENC’s three core values: Certification, Opportunities, and Resources. This theme re-emphasizes WBENC’s ongoing commitment of connecting major corporations and government entities with Women’s Business Enterprises (WBEs) to identify and negotiate business opportunities.

If you are a WBE, the WBENC National Conference and Business Fair offers Opportunities to generate contacts that may lead to contracts; Opportunities to learn how to build capacity in your business and meet marketplace expectations; Opportunities for access to corporate decision makers and avenues to government contracts; and networking opportunities amongst your peers to leverage a vast array of experience, knowledge, and industry expertise.

If you are a corporate or government representative, there are Opportunities to learn about maximizing your Supplier Diversity Program’s return on investment while increasing your profitability by marketing to women and women-owned businesses; Opportunities to speak to WBEs who can supply you with important new products and services to increase your productivity and profitability; and Opportunities to meet a broad range of WBEs who represent a substantial market for your company’s products and services.

The 2011 Summit & Salute was designed to help build the capabilities and capacity of women's business enterprises to meet the increasingly complex needs of our Corporate Members. As The Opportunity Connection, WBENC provides vital access between women's business enterprises and the corporations they serve.

The Summit kicked off with headlining speaker, Alice Schroeder, Bloomberg columnist and author of The Snowball: Warren Buffet and the Business of Life, a #1 New York Times and #1 Wall Street Journal bestseller, providing thought leadership on “Profiting in a World of Changing Business Models.”

The attendees were surrounded with valuable perspectives and knowledge from the panels and workshops held on Wednesday and Thursday. The topics included best practices, capacity building, joint ventures, communications, and government contracting. The Women-Owned Small Business (WOSB) ruling generated enthusiasm among the WBEs highlighting new opportunities and how to pursue them.

WBENC introduced the Multi-Tier Dialogue & Opportunity Connection sessions in which WBENC Certified WIBEs discussed potential relationships with corporations as Prime, or First Tier Suppliers, and also developed alliances with other WBEs as Second- and Third-Tier Suppliers to meet the increasingly broad and complex needs of corporations. Many corporations brought their existing First Tier WBE suppliers to the sessions to capitalize on this opportunity. These sessions were focused on propelling women’s business growth, expanding WBEs networks, and making introductions more meaningful.

The 2011 Summit & Salute also celebrated 20 exemplary Corporate Members as recipients of the 2010 Top Corporation Award and 14 WBEs as WBENC WBE Stars selected by WBENC’s Regional Partner Organizations (RPONs).

- Global Business Development Best Practices
- Marketing & Business Development for WBEs

MatchMaker Sessions at the Conference brought together over 95 Corporate Member buyers, who met with WBEs in approximately 600 one-on-one meetings. Corporate Members had the opportunity to be matched with WBE attendees after reviewing their profiles, then selecting and approving to meet with them in person.

With three days of high-profile keynote speakers, information-rich workshops and business-building opportunities, WBENC’s Conference again proved to be a core initiative dedicated to advancing WBENC’s mission of advancing the success of our Corporate Members and WBENC Certified WBEs.
For the ninth year, WBENC partnered with the Tuck School of Business at Dartmouth in 2011 to offer a one-week intensive executive education program for WBENC Certified Women’s Business Enterprises (WBEs). Thirty-eight participants were taught by top professors from Tuck. The program, Building a High-Performing Business, is an intensive learning experience that focuses primarily on increasing the competitive advantage and robustness of the participant’s own business. Up to 50 WBE attendees form a learning community that will continue to provide a source of support, expertise, opportunities, and strategic alliances long after graduation.

This general management program is designed to help WBEs that are beyond the startup phase to assess, improve and grow their businesses. To survive and prosper in today’s fast-moving, highly volatile business climate, WBEs must ensure they have all the essential components of a highly integrated business, such as:

- Clear and focused strategy
- Superior value
- Optimal core business processes
- Motivated and empowered staff
- Carefully managed relationships for long-term success

The Tuck School of Business at Dartmouth is the nation’s oldest graduate school of business and renowned for the quality of its teaching and the degree to which it fosters collaborative learning, inclusion, and community. It is designed to make a big difference in how owners think and operate their businesses when they return from the program. The primary case study is the participant’s own business. Collaborative learning groups apply the tools they have learned to assess and improve their businesses, using the same diagnostic and strategy-implementation approaches that external consultants would use.

### 2011 Dorothy B. Brothers Executive Scholarship Program:

WBENC suffered a great loss in July 2002 with the passing of Dorothy Brothers, a supplier diversity and development executive and WBENC board member. Dorothy Brothers founded the executive education scholarship program in order for women business owners to have access to the same high caliber management education that is available to Fortune 500 companies.

As a tribute to Dorothy’s accomplishments in helping diverse suppliers grow and successfully participate in competitive bid opportunities, WBENC established the Dorothy B. Brothers Executive Scholarship.

This program provides diverse supplier executive with the educational development that will help them grow and successfully compete in corporate supply chains.

Scholarships are awarded in amounts up to $11,000. WBENC selected 14 scholarship recipients in 2011.
