

Joey's Corner

For this edition of Joey's Corner our theme is marine life. We think there are many different cool facts about marine animals.

An octopus has three hearts and the colour of its blood is blue.

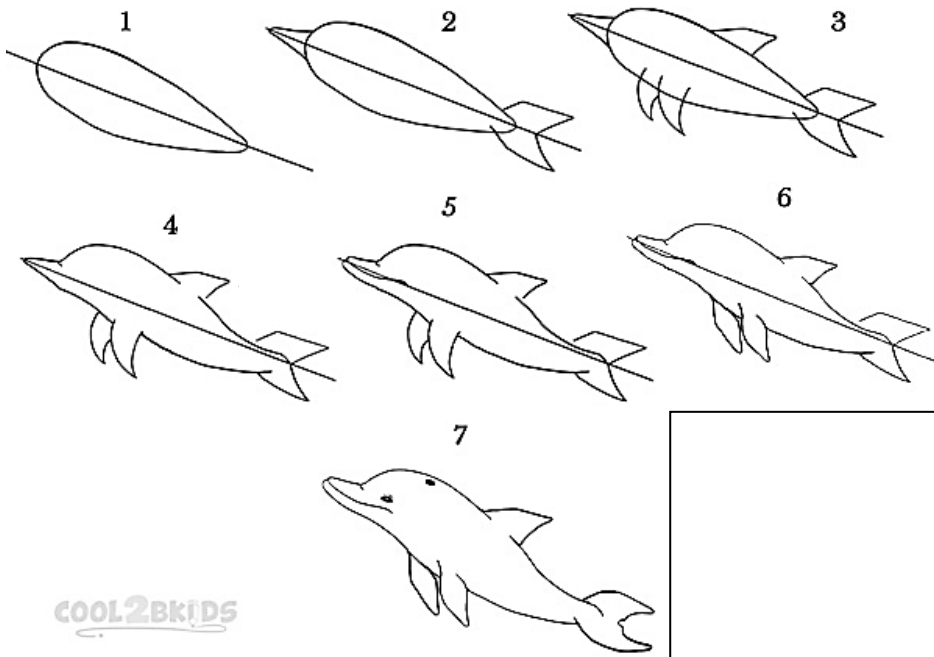

Jellyfish have been around for more than 650 million years which means they outdate both dinosaurs and sharks.

An oyster can change from one gender to another and back again depending on which is best for mating.

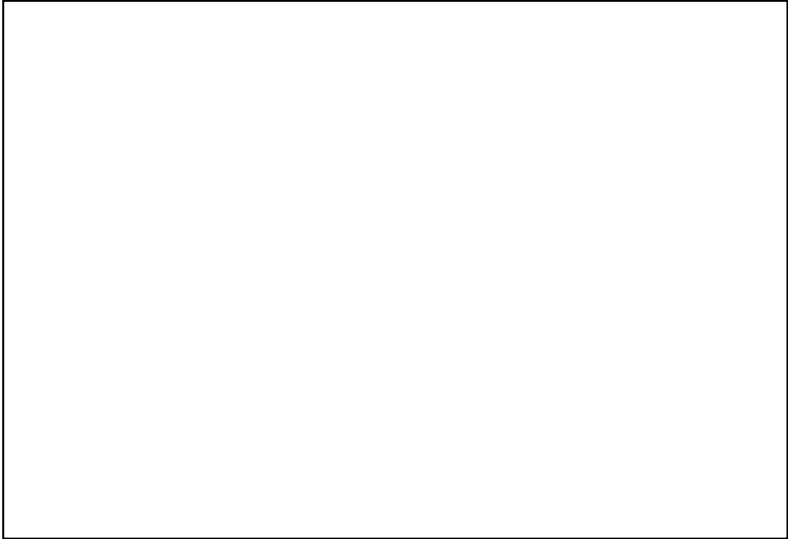

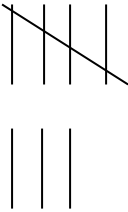

Sea sponges have no mouth, head, eyes, feelers, bones, heart, lungs or brain yet there are alive.

COOL2BKIDS

Draw your dolphin in the box below.

Dolphin	Octopus	Seahorse	Jellyfish
			

We interviewed some people to see which of these four animals was their favourite.
