

Kestrel Adventure Challenge: *Have fun, seek out wildness, and explore. Complete six out of eight boxes to win a prize. Visit www.kestreleducation.org to learn more or get hints.*

A) Find, photograph, and identify at least 2 species of salamander. *Try looking in clear ponds, flipping rocks in cool streams, and rolling logs and rocks in the woods.*

✓ here

B) Make a model boat out of only things you find in nature, put it in a stream or a river, and sail it as far as you can. *Try using tough grasses to hold your boat together.*

C) Measure a huge tree by how many hugs around it is.

Find the largest tree you can, team up with others, and wrap around that tree!

_____ hugs

D) Flip a rock or log, and sketch or photograph each animal species you find. Don't forget to put it back! *Find as many species as possible.*

_____ species

E) Find a moon snail and watch it move across the sand. *Moon snails like sandy bottomed shallows in the ocean and harbors.*

F) Watch the sun rise and set on the same day! *Try using a compass to find and record the bearing of each.*

sunrise

sunset

G) Find and photograph 3 middens made up of remnants of different kinds of food (like pine cones, hickory nuts, etc). *Make an educated guess about which animal made them.*

animals: _____

H) Go to an outdoor wild place and find the largest and smallest wild creatures you can. Photograph and identify them.

largest: _____

smallest: _____
