A Carpenter's Feathers

Miriam Carpenter's Feathers (*Woodwork Magazine*)

We are delighted to have [Miriam Carpenter](#) as our demonstrator next week! She will be demonstrating the process behind the shaping and carving the wood feathers shown above. If you are interested in carving and texturing, you'll be sure to get a new perspective on the subject Monday night. She [recently](#) expressed her love of wood by saying, "There are so many layers, so no matter how long you work with it, you discover something new."

Miriam is a graduate of the Rhode Island School of Design and has designed furniture for the Nakashima Studios for 7 years. A coffee table bearing her name was introduced at the Moderne Gallery in 2013. She was also a Windgate International Turning Exchange Resident, has been invited to the Emma Lake Collaborative in Canada, and worked with furniture makers and artists in Australia, Tasmania

HOW's A Comin'

[Bryan Richardson](#) has just about completed recruiting instructors and organizing the schedule for this year's Hands-on-Workshop (HOW). Bryan expects to mail out the class schedule and rules later this week so that you can sign up at February's meeting. This is our big fund-raising event for the year, so we hope you can join in.

January 20-March 11, 2016

This is a unique opportunity for members to learn tools and techniques from other members in their workshops. Yes, you have to be a member to put your bid in on a class. The modest fee charged for each class goes to the club to fund demonstrations and workshops for the membership. But don't send Bryan any money yet, there is a big demand for classes, and those bids first received get the class. You'll be able to read all about it in the class description-coming soon!
