Next Meeting- Gizmos and Jigs Mini HOW

October's meeting will feature a series of mini HOWs focused on Tools and Jigs for Turning. We still have a call for volunteers to share the gadgets and gizmos they like to use in turning. Maybe its a chuck, a tool, or jig. If you are willing to share your favorite, please contact Matt at mofuels@hotmail.com.

So far John Manura has offered to show his novel sled for clean resawing, Ward will bring his sleds for table and bandsawing tangential segments. Joe Seltzer will bring in work by Jakob Weissflog and Matt promises a surprise. Your participation in these popular meetings is greatly appreciated!

Members Show & Tell Last Meeting

You will enjoy seeing all the work presented at our last meeting, even if you were there. The pieces were varied and really outstanding, and the "telling" was informative and, at times, quite amusing. The whole session has been posted on our website in the [Photo Gallery](#) under the Events tab. Many thanks to everyone who bought items! If there is a photo you'd like, just let [Ward](#) know. Here are some pictures to whet your appetite.

Coming up, Matt has scheduled [Jakob Weissflog](#) for a special workshop on November 8th at Mike Kehs workshop in Quakertown. And we have tool maker and instructor [Stuart Batty](#) scheduled for November 21st. The theme for the Pollyanna Exchange, part of our December 19th Holiday Meeting, has been announced: "Ornaments." Take this as liberally as you would like, but please participate, and have some fun!

Update on the Lancaster Symposium

by Rick Baker

A good time was had by all at the First Mid Atlantic Woodturning Symposium held on September 24th and 25th at the Lancaster Marriott. Nine demonstrators provided techniques on topics ranging from coring a bowl to making exotic Christmas ornaments. The audience of 260 people had an opportunity to attend up to 8 of the scheduled 32 demonstrations. There were 239 creations displayed in the instant gallery by the attendees. Jeffrey Schnell recorded them and has posted them [here](#).

And, for those who didn't have enough stuff in their shop already, there were 19 exhibitors to

sell you whatever you wanted. There was also an opportunity to bid on beautiful turnings and tools in the silent auction. It raised over \$4,500! For those who missed this symposium, stay tuned for the announcement of the dates for the second annual symposium. Oh, and Matt says, "The video systems worked very well!"

THE UNMISTAKABLE IMPACT OF
ALBERT LECOFF

"The Unmistakable Impact of Albert LeCoff" is the title of an article by Terry Martin in the latest *American Woodturner*. It is a great article that provides a glimpse into the life and contributions of a man, in our own backyard, who has been enormously important to the art and craft of turning. You probably didn't know that Albert invented the woodturning symposium! While Albert credits other people for their contributions, Terry Martin elucidates this and other long-lasting contributions Albert has made. If you have wondered if it's worth becoming a member of the AAW and getting a subscription, its issues like this that will convince you.
