PT JAKARTA LAND AND ISA ART ADVISORY invite you to join us at the opening of

LEGACIES REAL AND IMAGINED

An exhibition by Adam de Boer and Jumaldi Alfi

Opening night: 6:00 - 8:00 PM, February 6th 2018

The exhibition presents the work of two artists, Adam de Boer and Jumaldi Alfi. Born a decade and ocean apart, the experiences of each are distinctly different yet strikingly similar. Born and raised in Southern California, De Boer identifies as Dutch-Indonesian-American. Alfi, born in West Sumatra, speaks proudly of his time spent in Java and his special relationship to his adopted home, Yogyakarta. An examination of their paintings reveals the layered nature of identity, also raising the question of how one becomes, or is made part, of a contemporary (art) community or historical (art) tradition.
