Most of these plants were divided recently but are establishing well in Orchidata bark. Some stunning stuff here and at very realistic prices. Be sure that soon there will be no more of these key varieties available in the US so don't miss your chance. We will be adding in other select items prior to the Summer Hummer weekend so come by and browse that weekend. As always, we will deal on quantity purchases. Feel free to e-mail me at andy.easton@sbcglobal.net if you have questions or need additional information.
