

# #RIGHTEOUSRESISTANCE ACTION TOOLKIT

As the largest faith-based network in the country, a prophetic voice is needed at the federation, state and national level, calling out the evil of white supremacy! Make no mistake, what is happening in Charlottesville is coming to a town near you! The KKK is rising again in numbers and visibility. Are we prepared to resist, protest, protect and heal?

Will you join us in fulfilling our four point action plan that takes our message out of our pulpits and into the streets?

---

## RESIST

Make a security plan (including non-violent training) with local community groups on how to physically resist Klan rallies. Find a clergy person of color or group to support and follow.

---

## PROTEST

Show-up with your trained congregation, standing in the breach in radical love against white supremacy. Commit to principles of nonviolent resistance and protest.

---

## PROTECT

Contact your local police department to discuss the protection of black and brown people against white home-grown terrorists.

---

## HEAL

Provide an on-going healing space prior to and after protests, specifically targeting black people who for centuries have been terrorized by the KKK.
