--	------	--	---

D) FIELD EXCURSIONS (See EIG website for further info - full details to be provided with joining instructions) NB. PLEASE SELECT ONLY ONE FIELD TRIP FOR WEDNESDAY

Wednesday 6th July, Westleigh Quarry (Aggregate Industries). Visit to a large carboniferous limestone quarry near to Tiverton. This visit will look at some of the challenges of operating a modern quarry to stringent environmental standards, maximising recovery of reserves and development of future resources.	£15	<input style="width: 40px; height: 20px;" type="text"/>	<input style="width: 40px; height: 20px;" type="text"/>
Wednesday 6th July, Lee Moor China Clay & Secondary Aggregates (Sibelco and Aggregate Industries). A visit to the largest China clay works on Dartmoor. The visit will include a tour of the quarry, clay production facilities as well as the secondary aggregate production plant which produces a range of aggregate products from waste derived from the China clay works.	£15	<input style="width: 40px; height: 20px;" type="text"/>	<input style="width: 40px; height: 20px;" type="text"/>
Wednesday 6th July, Newton Abbot Ball Clay (Sibelco). A visit to the globally important ball clay operations of Sibelco near to Newton Abbot. These sites produce high purity ceramic clays for use in sanitaryware, and are distributed globally. The visit will explore what makes these deposits so rare and of such importance to the ceramics industry.	£15	<input style="width: 40px; height: 20px;" type="text"/>	<input style="width: 40px; height: 20px;" type="text"/>
Wednesday 6th July, Exeter Building Stone. A wide range of building stones have been used in Exeter. We will explore the history of the use of different stones at different times across the city, from the Roman period to the 21st century and the buildings that have been constructed. The origins of the materials involved and their geological history will be covered and the social and economic influences on the use of stone overtime will be explored. Historic building conservation issues posed by different stones will be touched on. This is an ideal trip for those taking the train to Exeter as the route is within walking distance from the University. Minimum booking of 10 required	£15	<input style="width: 40px; height: 20px;" type="text"/>	<input style="width: 40px; height: 20px;" type="text"/>
Saturday 9th July, Hemerdon Mine (Tungsten West). A rare opportunity to visit a world class Tungsten-Tin deposit on our doorstep. The operators will provide a tour of the open pit, processing, and mine waste facilities to give a complete overview of this exciting development. Subjects such as ore geology, processing techniques, influence of commodity markets, and ESG will be covered. Maximum number of attendees 16.	£15	<input style="width: 40px; height: 20px;" type="text"/>	<input style="width: 40px; height: 20px;" type="text"/>

*** Please note all delegates visiting quarry or mine sites must bring their own PPE to include, steel cap boots, hi-vis jacket and hard hat ***
 NB. Where field trips are for limited numbers, places are assigned on a first-come, first served basis and either an alternative or a refund will be offered to unsuccessful applicants

4% transaction fee for payment by credit card		<input style="width: 40px; height: 20px;" type="text"/>
Total	£	<input style="width: 40px; height: 20px;" type="text"/>
