NABA was created in 1969 out of a need to provide opportunities for people of color in the field of accounting and finance, and to see those same people become business leaders.

Almost 50 years later, NABA continues to position its members for success by offering leadership training to help set them apart in the marketplace. Positioning our members for success also means helping our corporate partners create more diverse work environments, demonstrate their commitment to diversity and inclusion and attract and retain diverse talent.

The Seattle Chapter, a non-profit 501(c)(3) tax-exempt organization, is the premier professional organization for minority accounting, auditing, business, consulting, finance and information technology professionals proudly serving the Seattle community for over 30 years.
NABA’s vast network consists of 50 professional chapters and over 150 student chapters across the nation. Each chapter offers programming throughout the year to promote networking, education and leadership training.
