

**Shinae Choi.**

She majored in photography at Shingu University. She was born to be a photographer since her mother has the same career that she's been facing and feeling the stage from the moment when she was in her mother's womb. It has been around 10 years since she had her own camera in her hands. She has been filming life-time long performances. She and her camera were always there when the best performances were in country, such as music concerts, Korean dance, modern dance, and ballet. That way, she has made a firm position as a performance photographer.

Ten years of relationship with international ballerina Sue Jin Kang, is quite a long period. She probably knows the most of Sue Jin, which makes her the best photographer in country who can take photos of the 'real' Sue Jin. She is also very fascinated in art, and as well as a huge fan of Sue Jin. The biggest reason why she was very much loved by Korean people from her solo exhibition at Sungnam Arts Center(2010), by Japanese people from the invitation exhibit at Korean Cultural Center in Tokyo(2010), and by many Americans from the invitation exhibits at Korean Cultural Centers in New York(2011) and Los Angeles(2011), is that her affection towards Sue Jin is boundless.
