Our scholarships support:

- Nontraditional students: Adults continuing their education through degree or certificate programs, accredited seminars, workshops, courses or customized training.

Scholarships are awarded almost exclusively to students who demonstrate financial need.

THE FOUNDATION OFFERS TWO TYPES OF SCHOLARSHIPS

Pooled Scholarships

The Foundation administers a pooled scholarship program, which allows students to apply for multiple scholarships by completing one online application. The Foundation administers the application, selection and award process for those scholarships. To apply, visit www.mscf.org and complete the online application. The system allows you to create a login to access the application, which you can edit and save until you are ready to submit. The application period opens on September 1 and closes at midnight on February 1st.

Donor Involved Scholarships

The Foundation provides oversight and administers the payment process for several scholarships whose application and selection processes are managed by external committees. Applicants should review the description of each scholarship to determine their eligibility. To apply for these scholarships, contact the organization or individual listed.
