

View insights and take action

Analytics Cloud

tquila ANZ

As businesses rely more on data, understanding and insight into business data can create real world opportunities.

Analytics Cloud allows you to explore and interrogate not only your Salesforce data, but data in systems outside of Salesforce.

We can help customers set up Analytics Cloud so users can securely explore your data from anywhere.

How Analytics Cloud can help your business

Empower users to ask questions of your data themselves without waiting for technical setup

Explore and drill into your data to find the answers and insights your company needs

Get answers on any device - desktop, tablet, phone, or watch

The same trusted infrastructure behind Salesforce.com

View insights, find answers and then take action from within Analytics Cloud

“The greatest value of a picture is when it forces us to notice what we never expected to see.”

- John Tukey, American Mathematician

WHAT WE DO

ANALYTICS CLOUD SETUP

GET DATA INTO ANALYTICS CLOUD

WHAT THAT MEANS TO YOU

A platform to explore and interrogate your data

Speed of delivery - set up in weeks, not months

Use Analytics Cloud to explore beyond your Salesforce data

Let users ask questions without waiting for technical changes

Analytics on-the-go - no need to wait until you're back in the office

Combine data from different sources for cross-system visibility

Dynamic visualisation - slice & dice your data and see the results in real-time

Your data combined with a search-based query index gives unprecedented speed

Hosted on a secure and trusted platform

HOW WE DO IT

Data & Analytics Workshops - understand the data that's most important to you

Customisation & setup of:

- Datasets
- Lenses
- Dashboards

Integration of data from external systems into Analytics Cloud

Integration Workshops & Roadmaps

Salesforce & Wave APIs

Mulesoft Integration Platform

“The goal is to turn data into information, and information into insight.”

- Carly Fiorina, Former CEO of HP
