MESSAGE FROM OUR BOARD

Dear Members, Partners, and Supporters,

ACCESS TO SURGICAL AND ANAESTHESIA CARE FOR 80% OF THE WORLD BY 2030.

This is the collective global target of the Global Alliance for Surgical, Obstetric, Trauma, and Anaesthesia Care (the G4 Alliance) — an ambitious target responding to a formidable challenge: reaching the 5 billion neglected surgical patients around the world who lack access to safe surgical, obstetric, trauma, and anaesthesia care.

With this global target, we have collectively made 2016 a year of advancement for the cause of global surgery.

Working with our member organizations and partners, we hosted a series of side events in parallel with the 69th World Health Assembly and the 71st United Nations (UN) General Assembly to raise awareness for the needs of neglected surgical patients. We launched global advocacy campaigns, coordinated delegations to international high-level meetings, and established strategic partnerships with multilateral agencies, coalitions, alliances, and other organizations. Official statements and policy briefings were presented to the United States Congress, the UN, the World Health Organization (WHO), governments, and ministries of health around the world.

While still a young organization, we have grown significantly to an alliance of over 80 member organizations. At the end of 2016, we completed our planned transition to a permanent governance structure, which includes a Permanent Council of member representatives and a formal Board of Directors. In 2017, we will be launching our 2020 Strategic Plan, a roadmap that will drive our work over the next three years, helping to build the platform that will allow our alliance to achieve our long term goals.

As I reflect on the work of the G4 Alliance, our staff, and our members in 2016, I am struck by the knowledge that our cause has become a global dialogue among an unprecedented number of passionate and engaged stakeholders. While much has been accomplished, it is imperative that we accelerate our work to ensure that we fulfill our mission and our vision.

The successes of 2016, and our future activities, are only possible through the work and support of our member organizations, our partners and our supporters. I thank you for your support. Together, we can achieve our vision of a world where everyone has access to safe, affordable surgical, obstetric, trauma, and anaesthesia care.

Sincerely,

Ambassador Dr. Neil Parsan
Chair, Board of Directors
Today, an astonishing 5 billion people do not have access to safe, affordable surgical and anaesthesia care. Ninety percent of people in low- and lower-middle income countries can’t even get basic surgical care.

DR. JIM YONG KIM
President, World Bank Group
During his address to the Lancet Commission on Global Surgery North American Launch, May 2015

OUR MISSION

The G4 Alliance is committed to advocating for the neglected surgical patient and is driven by a mission of providing a collective voice for increasing access to safe, essential, and timely surgical, obstetric, trauma, and anaesthesia care as part of universal health coverage.

OUR VISION

UNIVERSAL ACCESS TO QUALITY SURGICAL AND ANAESTHESIA CARE

Every human being is entitled to ready access to high-quality, life-saving, and safe surgical, obstetric, trauma, and anaesthesia care performed in their community. We believe that significant improvements in surgical and anaesthesia care, which save lives and prevent lifelong disability, can be affordably and sustainably integrated within existing health systems.

OUR GLOBAL COMMITMENT

SAFE SURGICAL AND ANAESTHESIA CARE FOR 80% OF THE WORLD BY 2030.
OUR MODEL
How do we work to achieve universal access? Through three broad pillars of action encompassing advocacy, policy implementation, and resource mobilization.

ADVOCACY
We galvanize collective advocacy and amplify the voice of our member organizations by engaging in advocacy at regional, national, and global levels. We also advocate on behalf of our members and their important contributions to surgical care.

RESOURCE MOBILIZATION
We work to ensure that sufficient resources and funds are mobilized to support safe surgical and anaesthesia care for all. Financing safe surgical care will require collaboration by global and regional stakeholders to mobilize funding from multiple sources, including donor and domestic governments, multilateral organizations, corporations, philanthropies, foundations, and international financing institutions.

POLICY IMPLEMENTATION
We support the capacity-building of members and partner governments to incorporate essential surgical systems strengthening into national health planning, budgeting and implementation plans.
Obstructed labor. Cancer. Fistula. Cleft palate. Cataracts. Burns. Broken Bones. In high-income countries, treatment and management of these conditions is readily available. Yet 5 billion people around the world do not have access to the surgical and anaesthesia services that could prevent, manage or treat these conditions. In low and lower-middle income countries, surgery is often unavailable, inaccessible, or unaffordable. This has a devastating impact upon people, families, and economies, and the burden of disease is only going to increase.

For years, individuals and organizations witnessed this inequity and called for change, but it was not until recently that global leaders have begun to recognize the integral role that safe surgical and anaesthesia care play in achieving universal health coverage and the sustainable development goals.

In 2015, in response to the advocacy of global health stakeholders, including the G4 Alliance, the World Health Assembly passed Resolution WHA68.15, “Strengthening emergency and essential surgical care and anaesthesia as a component of universal health coverage.”

Achieving universal access to surgical, obstetric, trauma, and anaesthesia care is a goal that can be attained – in fact, it is a goal that must be attained to save millions of lives each year and to achieve the 2030 sustainable development agenda to ensure peace, prosperity and economic development. Recognizing this fact, the G4 Alliance and our member organizations have set an ambitious target to build on our collective efforts.
Neglected patients do not have access to safe, affordable surgical and anaesthesia care when needed.

People continue to die each year from preventable surgical conditions.

Dollars in GDP losses by 2030 in developing countries if we do not invest in surgical care.

1/3 of the population receives 6.3% of all surgical procedures.

Women around the world suffer from untreated obstetric fistula.

People are impoverished annually accessing essential surgical care.

World cancer cases will rise by 75% by 2030. 60% of all cancer cases require surgical intervention.

Surgical conditions represent 28-32% of the global burden of disease.

People die each year as a result of injuries from accidents.

Children are born with a disability resulting from congenital conditions each year.

90% of stillbirths occur in low- and middle-income countries.

For every dollar spent on strengthening local surgical capacity $10 is generated in economic productivity.

Improvements in trauma care can save up to 2 MILLION lives each year in LMICs.

Women die each day from pregnancy or childbirth complications.

Disabilities could be managed or treated with surgical interventions.
Increasing access to surgical and anaesthesia care demands progress in many different areas of healthcare: human resources, data collection, education and training, infrastructure, equipment, national planning, specialized medical skills and more. The diverse expertise of our 80+ member organizations, which include federations, professional societies, academia, NGOs and private sector, gives us unique insight into each of these areas. Our members work in more than 160 countries worldwide, allowing us to advocate globally.

While the expertise of our members is varied, they are united by their commitment to provide safe surgical and anaesthesia care to those who need it most, and they partner across disciplines to innovate new solutions to address long-standing challenges. Together, we are calling for the world to recognize that surgical and anaesthesia care are essential to primary health care - and we are building the knowledge, capacity, and political will to ensure that no one is left behind.
Across the globe, our member organizations are performing surgeries, training health workers, building infrastructure, advocating to policy-makers, and building more sustainable healthcare systems. With every patient treated, every clinic built, every tool provided, and every voice raised to speak about the urgent need for surgical care, we are moving closer to a world where no surgical patient is neglected.
OUR IMPACT

Our mission at the G4 Alliance is centered around advocacy - to galvanize action, we must first build awareness. We seek to change the perception that surgery is a “luxury” that can be implemented once health systems are stronger or when development is further along - on the contrary, surgery and anaesthesia are key to strengthening health systems and supporting national economic development.

Surgical care and anaesthesia can be integrated into existing health systems safely, affordably, and sustainably. We are committed to convening the global health and development community to educate, discuss, and explore how we can best support access to surgical care for all.

SNAPSHOT OF 2016

Commitments to safe surgical and anaesthesia care
COLLABORATIONS FOR CHANGE

The scale of need and the barriers to access are too great for any one organization to address alone. The G4 Alliance partners with diverse and influential stakeholders to build awareness, engage with policymakers, and drive change.

HIGHLIGHTING COLLABORATIONS FROM 2016:
SAFE SURGERY 2020
Safe Surgery 2020 is made possible with support from GE Foundation, hosted by Dalberg Global Development Partners and implemented by Jhpiego, Assist International, the Harvard Program in Global Surgery and Social and the G4 Alliance.

Collaboration with the Safe Surgery 2020 initiative enables the G4 Alliance to support increased prioritization of safe surgical care by national governments and the global community. The Safe Surgery 2020 collaboration identifies local needs and engages directly with surgical teams and local governments to develop and scale practical solutions that improve surgical outcomes.

WORLD HEALTH ORGANIZATION AND UNITED NATIONS
The G4 Alliance engages with the United Nations (UN) system through a collaboration with the International Federation of Surgical Colleges (IFSC), which maintains official relations with World Health Organization (WHO) and official consultative status with the UN’s Economic and Social Council. The G4 Alliance also advocates for the role of surgical and anaesthesia care as a member of the UN NGO Major Group and the Women’s Major Group. As the coordinating and implementing body on global health policy, the WHO is essential to the success of integrating surgical and anaesthesia care into existing health systems. Through hosting advocacy side events attended by ministers of health, member state representatives, civil society experts and multilateral representatives, the G4 Alliance works to advocate for the increased prioritization of surgical and anaesthesia care as part of the WHO’s core programme of work.

To further advocate for the role of surgical and anaesthesia care as an integral component of the sustainable development goals, the G4 Alliance participates in UN consultations and conferences. Each year, we coordinate a delegation to attend the UN General Assembly and host a high-level advocacy event to raise awareness for the global need for surgical care.

SURGICAL NGO FORUM

The G4 Alliance partnered with the College of Surgeons of East, Central, and Southern Africa (COSECSA), the Surgical Society of Kenya (SSK), the Alliance for Surgery and Anaesthesia Presence (ASAP) to host the first ever surgical NGO forum in Mombassa, Kenya. This event, which was sponsored by Johnson & Johnson and hosted in parallel with COSECSA’s annual conference, brought together local NGOs, surgical leaders, international organizations and government representatives to identify current opportunities, challenges and requirements to support surgical care in Kenya. As a result of this forum, a locally-led surgical NGO coalition has been established to lead training, capacity building and national advocacy in support of surgical systems strengthening.
The G4 Alliance and our member organizations convene global surgical stakeholders, policymakers, and funders through a variety of campaigns, events, and panels. Through these avenues, we are able to share the facts on surgical and anaesthesia care - and share why it must be an urgent global priority.

**JUNE**

**FIRST GLOBAL INITIATIVE FOR CHILDREN’S SURGERY MEETING**
London, United Kingdom

For too long in global health, we've allowed ourselves to be siloed and focused on specific, vertical illnesses or problems ...Safe surgical care represents a cross-cutting intervention that has the potential to strengthen health systems, improve patient care broadly and support greater prosperity through the avoidance of surgical impoverishment

**DAVID BARASH**, Executive Director, Global Health and Chief Medical Officer
GE Foundation

**AUGUST**

**NATIONAL SURGICAL PLANNING STAKEHOLDER MEETING**
Dar es Salaam, Tanzania

Coordinated in collaboration with Jhpiego, Assist International, Harvard PGSSC, GE Foundation, Dalberg and Safe Surgery 2020

**SEPTEMBER**

**LAUNCH OF SAFE-T CAMPAIGN**
Hong Kong, China

G4 Alliance joined this global safe anaesthesia campaign launched by the World Federation of Societies of Anaesthesiologists (WFSA) during the World Congress of Anaesthesiologists

**UN ADVOCACY SIDE EVENT** New York, New York
“Roadmap to 2030: Surgery’s Essential Role in Achieving Health for All”
Hosted in partnership with GE Foundation and Safe Surgery 2020

**VIETNAM SURGICAL SYSTEMS AUDIT REPORT WORKSHOP** Ha Long, Vietnam
Hosted by Operation Smile and the Ministry of Health of Vietnam
APRIL

THE G4 ALLIANCE WEBINAR SERIES
“Developing a Platform to Track Global Surgery Partnerships and Synergies”

FINANCING AND INNOVATION IN GLOBAL HEALTH Washington, DC
Panel featuring the G4 Alliance, Johnson & Johnson, Deutsche Bank, etc.

INTERACTION FORUM Washington, DC
“Safe Surgery: the Misunderstood and Essential Link in Global Health and Development”
Panel hosted by G4 Alliance members ReSurge, Jhpiego and IntraHealth

GLOBAL HEALTH AND INNOVATION CONFERENCE New Haven, CT
“Safe Surgery for All: Addressing the Neglected Stepchild in Global Health” G4 Alliance participated on a panel hosted by GE Foundation.

MAY

GLOBAL LAUNCH OF #ICOMMIT2SURGERY CAMPAIGN

US CONGRESSIONAL BRIEFING Washington, DC
“Surgical Care and Global Need”
Hosted in partnership with the G4 Alliance Member ReSurge

69TH WORLD HEALTH ASSEMBLY Geneva, Switzerland
“Surgery Saves: Prioritizing Surgical Care & Anaesthesia as Part of National Health Plans”
Special remarks provided by government representatives from 3 countries. Hosted with our member organizations in partnership with GE Foundation and Safe Surgery 2020

WOMEN DELIVER CONFERENCE Copenhagen, Denmark
“Safe Surgery: A Non-Negotiable in Women’s Health, Equity, and Well-being”
Advocacy side-event hosted in partnership with G4 Alliance members GE Foundation and EngenderHealth, in partnership with Safe Surgery 2020
Featuring Dr. Denis Mukwege, Founder of Panzi Hospital and one of Time’s 100 Most Influential People and special guests from Jhpiego, GE Foundation, and UNFPA

OCTOBER

AMERICAN COLLEGE OF SURGEONS CLINICAL CONGRESS ADVOCACY EVENT Washington, DC
“Advocacy, Action and Accountability - Progress Towards Global Surgery for All”
Featuring special remarks from Dr. Edna Adan, Former Minister of Foreign Affairs and First Lady of Somaliland, Founder of Edna Adan Hospital

SECOND GLOBAL INITIATIVE FOR CHILDREN’S SURGERY MEETING Washington, DC

INTERACTION FORUM Washington, DC
“Safe Surgery: the Misunderstood and Essential Link in Global Health and Development”
Panel hosted by G4 Alliance members ReSurge, Jhpiego and IntraHealth

GLOBAL HEALTH AND INNOVATION CONFERENCE New Haven, CT
“Safe Surgery for All: Adressing the Neglected Stepchild in Global Health” G4 Alliance participated on a panel hosted by GE Foundation.

NOVEMBER

GLOBAL SURGERY RECEPTION AND ADVOCACY EVENT Washington, DC
Featuring special remarks from former ambassador Jimmy Kolker, Hosted in collaboration with the Organization of American States

ASIA PACIFIC MEDTECH FORUM Singapore, Malaysia
G4 represented on the Global Surgery Panel

DECEMBER

SURGICAL NGO FORUM Mombasa, Kenya
Hosted an inaugural meeting bringing together surgical NGOs in parallel with the Annual COSECSA Conference and in partnership with the Alliance for Surgery and Anaesthesia Presence (ASAP), COSECSA, the Surgical Society of Kenya (SSK) and Johnson & Johnson

GLOBAL CONSULTATION ON STRENGTHENING FRACTURE CARE IN LMICS Davos, Switzerland
Hosted by the AO Alliance Foundation
The G4 Alliance is grateful for the generous contributions provided by individuals and organizations in 2016. Your support enables us to progress towards achieving our shared vision of universal access to safe surgical and anaesthesia care. Thank you!

Mayer Brown
Northwestern University
Our Honorary Council is comprised of leaders in global health who generously offer their expertise and experience to guide the strategic vision of the G4 Alliance. These advisors are ambassadors for the G4 Alliance, spreading awareness about the life-saving and disability-preventing role of safe surgical care.

The G4 Alliance would like to acknowledge the contributions and commitment of each member of the Honorary Council. These individuals provide a powerful voice in support of safe surgical care and they play an essential role in sharing the message of the G4 Alliance and our members.

**HONORARY COUNCIL CHAIR:**
Ambassador Dr. Neil Parsan
Executive Secretary for Integral Development
*Organization of American States*
Former Ambassador of the Republic of Trinidad and Tobago to the United States of America and Mexico

**HONORARY COUNCIL MEMBERS:**

- **Hon. Mr. Bahar Idriss Abu Garda**
  Minister of Health *Republic of Sudan*

As we move into the next phase of the G4 Alliance in 2017, we will be launching our 2020 Strategic Plan. This bold plan will lay out a roadmap for collective advocacy and action over the next three years.

We will continue to advocate for the neglected surgical patient and for the prioritization of safe surgical and anaesthesia care, including our call for the prioritization of a Global Action Plan and a Global Accountability Framework. With our members, we will work with national governments and multilateral organizations to develop and implement sustainable national surgical, obstetric, trauma, and anaesthesia plans, and advocate for the mobilization of resources to support the expansion of strengthened health systems around the globe. Internally, we will launch a member platform and map to streamline communications and partnerships between our members, continue to develop tools and resources that will support advocacy and networking activities for our members and partners, and continue to identify sustainable revenue streams to support the work of the G4 Alliance.
Our three-year strategic plan cuts across each of the G4 Alliance’s pillars and provides a blueprint for progress and action. We will build upon the momentum generated by our member network over the past two years ensure that surgical, obstetric, trauma, and anaesthesia care is prioritized as part of the global development agenda.

**ADVOCACY**

- Galvanize collective action

**POLICY IMPLEMENTATION**

- Surgical planning and implementation

**RESOURCE MOBILIZATION**

- Build an enabling funding environment

**PILLARS**

**OBJECTIVES**

- Prioritize surgical, obstetric, trauma, and anaesthesia care at global and multilateral levels, with regional bodies and organizations, and as part of national and global health agendas.

- Build political commitment for surgical care and

- Develop consensus for a framework of critical elements required to support national surgical planning and capacity building

- Advocate for mobilization of funding mechanisms to support global surgical care, including funding from high-income countries, regional development banks, private sector, foundations, philanthropies and national-level financing

**OUTPUTS**

- Interactive global map and platform to connect G4 members and surgical stakeholders
- Meeting and events hosted to support global coordination of national surgical planning and advocacy
- G4 auxiliary offices in 6 WHO global regions to support surgical systems strengthening
- Global surgery campaigns, PR, multimedia, and advocacy campaigns developed
- Global action plan and accountability framework developed and adopted by member states
- National Surgical Planning “Best Practices Scorecard” developed, published, and disseminated
- Regional safe surgery advocacy networks mobilized
- Standardized perioperative case log registry
- Global surgery financing advocacy and action plan developed

JOIN THE MOVEMENT

Lack of access to surgical, obstetric, trauma, and anaesthesia care is not about numbers and statistics. It’s about saving and transforming the lives of people impacted by disease, injury and life circumstance. It’s a family that is unable to travel the long distance required to access the surgical care that could save the life of a loved one. It’s a child who is unable to attend school due to a disability that should have been corrected at birth. It’s a bereaved mother, facing pain and isolation when she should be celebrating the birth of a child.

BECOME AN ALLY
The solution to this global health crisis requires innovations in technology, human resources, and funding to meet the challenges of strengthening health systems. It will also require cooperation among civil society actors, governments, NGOs, international bodies, and other key stakeholders. This is an issue that impacts us all; the solution will require collective action. Our voice is strong, but global change will only happen with a global effort - and that includes you. How can you get involved?

• Join the G4 Alliance as a member organization
• Join our dialogue on global surgery through social media
• Participate in the discussion on social media (#SafeSurgery #SurgeryUHC)
• Attend our webinars and events to learn more about the essential role of surgical and anaesthesia care to achieve health for all
