

AVOID BUSINESS DATA LOSS AND MEET YOUR DATA RETENTION REQUIREMENTS

ISM offers an enterprise data backup model that means you'll achieve risk reduction, speed to value, unlimited backup, and cost-effectiveness, paying only for what you need and use.

WHAT DO I GET?

- State of the art backup technology, including installation, configuration, upgrades, and patching
- On-demand, secured shared infrastructure
- Virtual tape, encryption, and offsite replication, as well as deduplication capability
- Flexible backup retention policies, backup frequency, and restores to meet your requirements
- 24/7 backup monitoring and problem resolution, including on-call production support

WHY SHOULD I CARE?

- Keep your data safe with regular security health checks and revalidations
- Rest easy knowing ISM software and hardware is regularly refreshed and enhanced so you're always up to date
- Match your backup requirements to your business needs with backup and recovery criteria designed to meet your security and audit policies
- Benefit from ISM's 10+ years of experience in data backup staffing and infrastructure
