

LegWorks Mobility Project

The All-Terrain Knee

*Our mission is to enable amputees globally
to walk with confidence.*

www.legworks.org

Our vision as a company is to develop and supply components for lower-limb amputees around the world, regardless of where they live or their ability to pay.

To help achieve that vision, LegWorks developed the **LegWorks Mobility Project** for NGO clinics and organizations. This program allows NGOs to access our All-Terrain Knee, a highly durable and high-functioning prosthetic knee joint, at a discounted price.

To participate, we ask you to agree to the following terms, which reflect our mission:

- Provide proof of NGO status
- Track and share outcome data
- Not re-sell the All-Terrain Knee
