A creative club for girls & boys in gr. 5-8

What is SharKids? One part engineering design challenge, one part small business tutorial, hands on, multisensory---completely collaborative and creative---SharKids offers middle school students the opportunity to imagine and define themselves as makers, inventors, and creators. We encourage students to think deeply about what motivates and excites them---to find their passion---with an eye toward creating a product, project, or small business that they can launch into the world, whether in their neighborhood, school, or beyond.

When does this after school club meet? Monday afternoons from 3:00 to 4:00, Jan 09 - Apr 03.

What does SharKids mean? It's our spin on the hit ABC TV show *Shark Tank*. After watching dozens of episodes, and marveling at the poise and presence of so many young entrepreneurs (think: Moziah Bridges, the bow tie kid, or Ryan Kelly and his *Ryan's Barkery*), we decided it was time to help encourage and nurture another group of kids to see themselves as creative builders, makers, presenters, performers, sellers, and entrepreneurs.

Cost? \$250 for a ten-week class (Module I). Deliver completed registration form and a check made out to *Kid Archimedes, Inc.* to Mariafe in the Lower School office.
