The students and families the Andy Roddick Foundation serves have been greatly impacted by COVID-19 — illness, loss of wages and childcare, inability to pay for basic needs, and lack of needed tools for their children’s education and learning. As a result, the Foundation has pivoted to ensure the basic and most urgent needs of our students and their families are met while also fulfilling our mission to provide students continuous learning outside the classroom.

The Foundation has launched a Family Emergency Fund that will support students and families with the greatest need in our community — those who will be hit the hardest.

Your gift to the Family Emergency Fund will help to:

- Put fresh fruits and vegetables and healthy recipes in the kitchens of our families through our partnership with Brighter Bites.
- Assist with additional food security and other basic needs through pre-paid debit and gift cards.
- Provide at-home learning tools and school supplies.
- Put 200 tablets or laptop computers in the hands of our students who would otherwise not be able to learn outside the classroom.
- Put books in the hands of our students to help them retain their hard-earned reading skills.

You can help by:

- Becoming a monthly donor.
- Increasing your current support.
- Converting your event sponsorship to a gift.

Because, together, we can do anything.
