

# Trans\*H4CK {Collaboration} LOFT

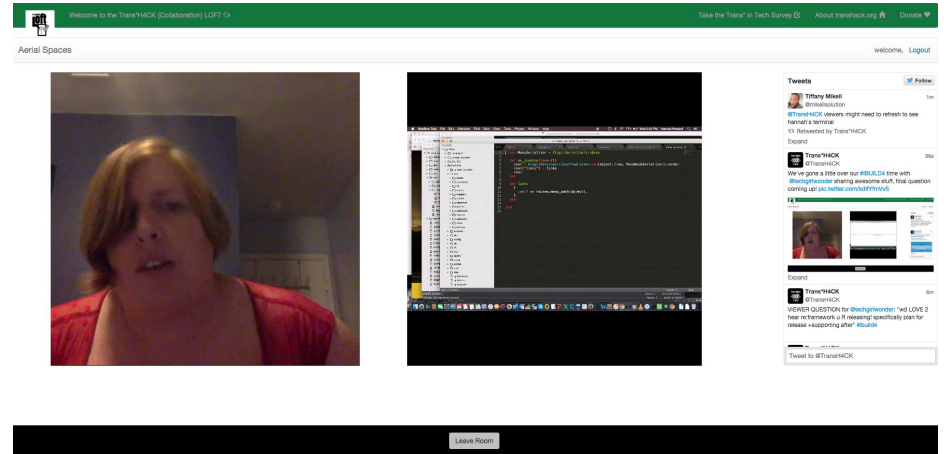

Host a Partner Event

# A Virtual Education Center for the LGBT Community

Trans\*H4CK delivers technology education and product showcase opportunities in the **Trans\*H4CK {Collaboration} LOFT-- a collection of virtual spaces designed specifically for collaboration, sharing and building for the trans and gender non conforming community.**

The objectives of the virtual programming:

- Showcase technology created by trans and gender non-conforming identified technologists, founders and creators.
- Highlight the intersections of transgender advocacy and technology.
- Create collaboration opportunities such as virtual hackathons and conferences for the transgender and gender non-conforming community.

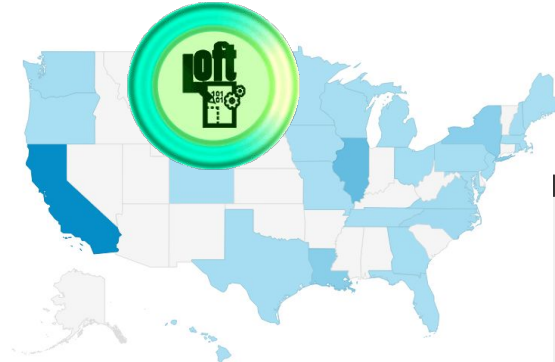

# Global Reach & Quality Audio + Video Archives

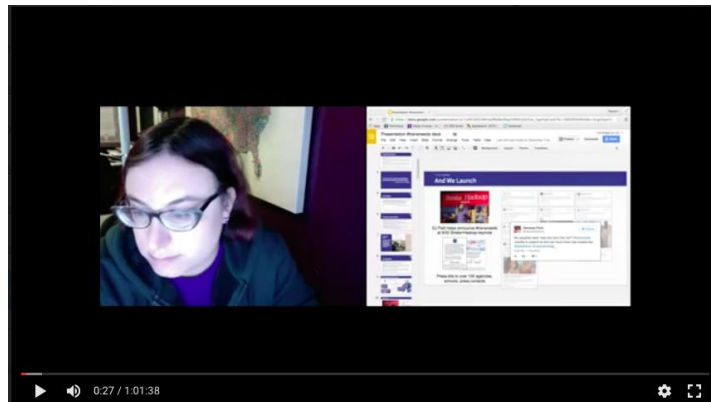

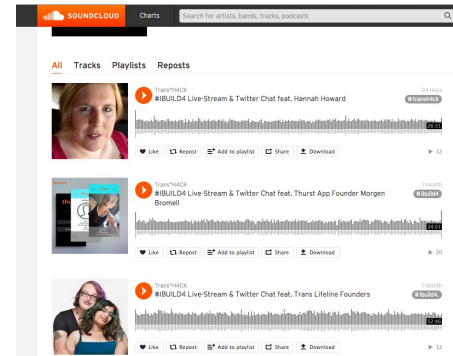

Impact to-date:

- 11 events
- 427 attendees
- 10 countries & 30 U.S. states

*\*All sessions held on the LOFT are archived.  
Allowing session content to be repurposed and  
shared on various outlets post live event.*

# Join our Online {Collaboration} Community

- Host a speaker series, product demo, AMA, workshop or other online/virtual learning or collaboration event on The LOFT
- 100% In-browser (no download req.)
- Integration with 1000s of audience engagement widgets (Twitter, Slack, GitHub, etc)

*The Trans\*H4CK {Collaboration} LOFT is a non-profit donation based project.*

The collage features several key elements:

- Black + Trans In Tech Series:** A banner with four portraits: @hugs\_cookies, @kittybellashow (Kitty Bella Show, Sundays or), @Pickavet, and @dtwps.
- iBUILD4.space:** A website header with the text "A space for collaboration and sharing for the trans community".
- Tech Together:** A workshop announcement: "An interactive workshop on building community through mission-driven technology." dated Feb. 20th 10am PST.
- Twitter Feed:** Tweets from @TransH4CK and @kingkortney, including a tweet about "VIEWERS: What are other low tech products you all use to build community? #TechTogether".
