# Octagon Luncheon-Learn Educational Seminar

May 23rd, 2017

“Masonry Heaters: A Modern Solution to Sustainable Home Heating (and Cooking!)”

**FIRESPEAKING**

MASONRY HEATERS • WOOD-FIRED OVENS • NATURAL FINISHES

## Course Objectives Include:

- Understand how a masonry heater uses a local and renewable fuel source to provide sustainable, efficient, and healthy radiant heat for a modern residence
- Learn about different types and styles of masonry heaters available
- Understand the basic design and construction process for a masonry heater, including add-on options
- Overview of architectural details, code requirements, and sizing criteria for specifying a masonry heater

**After the conclusion of the presentation, a brief discussion will elaborate on how Firespeaking products and services can help to resolve many project concerns outlined in the presentation.**

---
