ABOUT BLUE LINE

Early in the 20th century, Old Metairie was hard to access from the metropolitan New Orleans. Considered “the country” many city folk resisted settling in the area until the 1916 line extension of the Napoleon Avenue streetcar line. The Blue Line, as the streetcar route became known, created new access to the country and along with the growing popularity of automobiles led to a boom in the area. Today, Old Metairie is a thriving community, and while the streetcar line may be long gone, Blue Line Sandwich Co. is excited to bring this community together around the dining table.
