Application for SWCNT Matching Award

The Integrated Nanotube Commercialization Award is the largest materials award for the mass commercialization of single wall carbon nanotube research and applications. Material availability to qualifying research institutions totals 1 metric ton (1,000 kilograms). This is made possible by OCSiAI, the largest SWCNT producer in the world, by using a revolutionary continuous production process to deliver low cost, high quality carbon nanotubes in volumes measured in tons.

Eligibility & Application Details

All research institutions are eligible for the Award, including universities, colleges, national laboratories and other research-only organizations. Applications are currently limited to the **United States, Canada, and Australia**, although additional countries may be added in the future. There are no restrictions on fields of application, and all researchers are encouraged to apply.

Proposals are accepted starting February 3, 2015. Awards will be granted on a quarterly basis throughout 2015, with funding priority is given to projects by application date.

A minimum purchase of 100 grams after Award matching is required. TUBALL™ SWCNT is packaged in 50 and 100 gram containers.

Submit completed application forms to apply@inanocomm.org.

Project Name

Project Overview

The type of research, including any details relevant to the areas of:

- Technical Merit
- Commercial Merit
- Potential for Breakthrough Global Impact in Commercializing/Advancing Nanotechnology

Total Single Wall Carbon Nanotube Quantity Required, After Matching
(in increments of 50 grams, 100 grams, or kilograms – e.g., 500 grams)

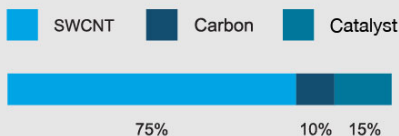

PRICE LIST – For Matching Award Winners

All prices listed below are per 1 gram, for the total quantity after matching

Product:

Composition:

| Offer for large orders | Industrial quantity | | Start-up quantity |
|------------------------|---------------------|---------|-------------------|
| | 10–100 kg | 1–10 kg | 100–950 g |
| More than 100 kg | \$ 1.65 | \$ 2.85 | \$ 4.35 |
| \$ 1 | | | |

TUBALL™ is pre-packaged in containers of 50 and 100 g. Minimum orders *after matching* are 100 g.

Date Materials Requested By

Note: Matching Award materials are typically available within 30 days of receiving an Award

Terms & Conditions
