SUCCESSFUL ENTREPRENEUR TALKS SMALL BUSINESS SUCCESS

Jim founded, and continues to lead as CEO, a successful southern California steel business. **Paragon Steel** has stayed strong, profitable, and nimble through nearly 30 years of economic and industry change. How to succeed in business while really trying?

Let Jim tell you how he did it.

TRIPLE TRANSPLANT RECIPIENT TEACHES THE VALUE OF HOPE

Jim isn't just a CEO...he's also a triple transplant recipient, surviving a surgery that is both incredibly rare and risky. How did he manage Type I diabetes, the transplant wait list, running a successful company, and caring for a family? *Here's a hint: it has to do with HOPE.*

Jim's moving presentation isn't *just* about business, or *just* about the medical miracle of triple transplant. His powerful story inspires your audience to **endure adversity in order to prevail.**

Your presentation was wonderful. It was very inspiring, informative, and the audience enjoyed it very much.
