

# Food Scrap Collection

## **PILOT PROGRAM AVAILABLE NOW!**

Monterey City Disposal Service Inc.(MCDS), and the City of Monterey would like to introduce to you the Food Scrap Collection Pilot Program. The purpose of this program is to make it simple and convenient to participate in composting by adding food scrap collection to your existing waste service. Much like with mixed recyclables, the food scrap collection program will allow you to add an additional container(s) for separating food scraps from other types of waste.

Our goal, in partnership with the Monterey Regional Waste Management District, is to develop the program into a valuable service that reduces landfill disposal, increases city-wide recycling rates, and produces a valuable compostable material which may also be utilized as an energy source.

The pilot program is scheduled to last 6 months, ending on April 30, 2013. Based on the performance of the program during that time, and upon the approval of the City of Monterey, the program may become a normal service to be offered to all commercial customers in the City of Monterey.

If you are interested in participating, please see the included sheet for rates and levels of service that will be available through the program. Please note, as this is a pilot program, rates and levels of service are subject to change.

To add food waste collection to your service, or for any questions please contact Monterey City Disposal Service at 372-7977.
