

iPort®

Hold. Charge. Protect. Integrate.

Fleet Vehicles

Wireless iPad Charging for Fleet Vehicles

LaunchPort Ruggedized Sleeve

The LaunchPort system consists of a protective sleeve that mounts to a wireless inductive charging station.

LaunchPort sleeves can rotate to portrait or landscape orientation on a Station to match the content on iPad.

CommandStation

The LaunchPort WallStation securely mounts and charges iPad effortlessly via 12V using our patented technology, the Universal box that enables installations with VESA compatible mounts & more. Mount iPad with strong magnetic mounting.

LaunchPort has become the go-to solution for mounting, charging and protecting iPad. In Fleet vehicles, reliability and rigidity are key. LaunchPort delivers with our wireless iPad charging system for Fleet vehicles: Ruggedized Sleeves that protect iPads from spills and falls, and 12V Universal Box that wirelessly charges iPads. Together, iPad is always charged and always ready when it matters most.

Always Charged

iPad is always ready and fully charged for deliver critical app information.

Home Base

iPad always has a place to be held and charged without wires. Eliminating wire management needs.

Protective Case

Protect your investment with a case designed for the wear, tear, hazards of duty.

Secure

Prevent loss with effective security options.
