The International Child Health Group of the Royal College of Paediatrics and Child Health, in collaboration with Doctor's of the World, present our 2017 Annual Winter Meeting - 'The Health of Child Migrants and Refugees'. This event has been accredited for 6 CPD points. The meeting will take a look at the health of children affected by being refugees and migration.

Over the course of the day we will hear from an exciting range of speakers on the effect of being a migrant/refugee is on a child's physical and mental health, from clinicians and researchers with both national and international experience. We will also hear from young refugees, as well as having a panel discussion on the action we can take to improve the health outcomes of this group.

Our line up includes....

Dr. Poonam Dhavan, International Organisation of Migration

Dr. Ruth Reed, Central Oxon CAMHS & Horizon Service

Ligia Kiss, London School of Hygiene and Tropical Medicine

Medecins Du Monde, Greek Chapter

Medecins Sans Frontieres

And many more!
