

## ARTIST IN RESIDENCE APPLICATION 2018

At The Art House, transformative opportunities are available through the On-Site Artist-in-Residence position to explore and realize one's most important ideas by providing: access to a supportive and rigorous artistic community, robust opportunities for studio and social practice, 24-hour work space, consistent participation in quarterly exhibitions, curatorial training, extensive technical/material assistance and professional development support. The same supports and opportunities are offered to Off-Site Artist-in-Residence positions who have a full time studio at home or elsewhere. Monthly sessions convening current residents will engage information sharing through critique and art-making methods and approaches for navigating challenges.

Resident participation includes participating in a minimum of one course per term (4 terms annually; 15% off tuition is applied), supporting the community with providing support in prep, curation and installation of quarterly exhibitions, maintaining an active studio practice and committing to: ON-SITE STUDIO APPLICANTS: a one year sublease for 24-hour studio access (\$300 per month); OFF-SITE STUDIO APPLICANTS: a monthly programmatic expense of \$200, due at the first of each calendar month by check or cash.

Artists interested in applying for either an on-site or off-site residency (indicate preference below) at The Art House must complete the attached application form by the deadline.
