There is also a large range food related props such as bowls, glasses, plates etc. All in brand-new condition and range from contemporary to Asian and ethnic. Please enquire for hire charges.

Things You Need to Know

- This is a classy studio. Everyone who walks in loves it; so, if you have clients to impress, this space will certainly do it.
 - The studio is painted white, including the floors. There are 4 x 6.5x2.5 meter high windows with blinds. You can use the natural light that is abundant all day long, or block it. The light is gorgeous, filtered and soft. We do not have black out facilities, unless you want to shoot at night.
 - The studio is fully air-conditioned; we can heat it or cool it down.
- The kitchen has an industrial stove that runs on electricity. There is a microwave, fridge and all the equipment you need to cook a feast.
 - If you hire the bare bones studio, this does not include the use of the kitchen beyond making a cup of tea.
 - There are some noise restrictions during the day, as we have very hardworking neighbours; so, we can crank the music up only to a certain amount. After hours is a different story. Therefore, if you want to play your rock, funk, dub step, opera at full blast, book the studio for nighttimes.
 - There is a loading dock and industrial lift
 - There will be onsite management, to help you with equipment, at no extra charge.
 - Available 24 hours 7 days
 - Please check the booking conditions on the website
