

RAHAMIM
ECOLOGY
CENTRE

Vision, mission and values

Vision

Rahamim, as the centre of the broader ecological effort of the Institute of the Sisters of Mercy of Australia and Papua New Guinea, exists to promote a shift in consciousness and behaviour based on a new understanding of our interconnectedness.

Mission

We will achieve our vision by:

1. Integrating sustainability and spirituality in everyday life in ISMAPNG's places and ministries,
2. Providing innovative educational programs and opportunities that promote a new understanding of the universe, science and theology,
3. Engaging in collaborative advocacy through strategic partnerships and networks,
4. Building capacity of Board, staff and volunteers in their journey of ecological conversion,
5. Ensuring effective and ethical governance and management of Rahamim for ISMAPNG.

Values

1. We welcome all and foster a family environment through our **hospitality** and sense of play and enjoyment.
2. We aspire to **excellence** through individual and shared innovation and reflection.
3. We **respect** ourselves, each other, Earth and the other living things which share this planet with us.
4. We live with **integrity** by practicing our values.
5. We strive to **live simply** to minimise our ecological footprint.
