AIA UK Mission Statement

To serve members and the architectural community of the UK by:

- Providing relevant and innovative educational opportunities;
- Promoting ethical and inclusive practices in the architectural industry;
- Promoting good design in all aspects of the built environment;
- Advocating on behalf of the profession in the context of our position in the local community;
- Acting as a liaison between AIA jurisdictions and local UK organisations;
- Facilitating interaction and communication between members, other professionals and industry leaders; and,
- Leading and supporting the adoption of progressive initiatives that address the urgent challenge of climate change.
New Board Roles: AIA UK Sustainability Co-Chairs:

Alex Miller, AIA & Dr. Mark Breeze, AIA

As architects, our design and specification decisions have a significant and lasting impact on our shared environment - from the immediate and ongoing use of resources and generation of waste, to the broader social and cultural effects of the design itself. The AIA UK is committed to helping its members think through these dynamic complexities through a range of educational talks and events to learn more about best practices and broader developments in the area, so they can be as engaged as possible in all aspects of their work to help create a more equitable, healthy, and environmentally positive world.

sustainability@aiauk.org.
New Board Role: AIA UK Equity, Diversity & Inclusion chair:

Diana Yu, AIA

The AIA UK chapter is committed to promoting Equity, Diversity and Inclusion in the architectural profession. We strive to understand how social mobility, gender parity, BAME & LGBTQ representation, mental health & well-being, and the inclusion of those with disabilities can be improved. Through our events and initiatives, we seek to raise awareness of the challenges which are still prevalent within our industry and to offer our support and resources to those who may need it.
