

## Our City Forest Lawn Busters Lawn Conversion Packages

<b>Packages</b>	<b>Features and Plant Types</b>	<b>Base Cost</b>
A- Groundcover Garden	Low maintenance. Design includes groundcovers and grasses. This is our most basic package for those looking for ease of care and ease on their wallet.	\$100
B- Flowering Landscape	This package is required for areas with existing trees or large shrubs within the yard. A tree is also optional with this package. Design includes up to 10 species options, ranging from groundcovers and grasses to shrubs. We will ensure tree suitability, compatibility, and determine proper placement within the design.	\$250
C- Drought-Tolerant Oasis	This package is required- but not limited to- lawn conversions which are 1,000 square feet or larger. This is also the best option if a client would like the most selection, input, and can commit to regular maintenance. Design includes up to 15 species options, groundcovers, grasses, and shrubs. If desired, a client may request a space in the design for a path or dry river bed where stones/bricks/rocks/boulders are later placed by the client themselves. A tree may also be included, depending on compatibility with design.	\$500

**Each package includes:**

- Up to 1,000 contiguous square feet of drought-tolerant lawn conversion
- Sheet mulching, which involves trenching lawn borders, a layer of cardboard, a 3"-4" layer of soil amendment, and a 3"-4" layer of natural mulch
- Planting groundcovers, grasses, and/or shrubs according to design
- 50% minimum coverage of converted lawn by plants once they are fully grown

**Additional Services Costs**
