WIRE WRAPS

DuraLabel self-laminating wire wraps are easy to apply and available in many sizes and colors. Self-laminating wire wraps feature a protective clear tail which wraps around the identifying printed information for extra protection.

Easy to Use: Apply the wire wrap label to the wire or cable to be marked.

Self-Laminating: Wrap the clear "tail" around the wire or cable so that it covers/protects the label.

Finished! The wire or cable is marked in just a few seconds.

DuraLabel Lobo
½" - 2" tape widths

PRINT WITH EASE

LabelForge custom label software (free with DuraLabel desktop printers) gives you the power to:

- instantly create linear and 2D barcodes
- add standardized symbols or custom images
- import data from a spreadsheet
- batch-print sequence markers for efficiency

MORE SOLUTIONS

High-Strength Zip Tag Stock
Extra strong supply affixes to wires and cables with zip ties. Label bundled wire and odd shapes.

Nylon Label Tape
Designed for flexible surfaces. Maintains shape, even after twisting. Great for cable tags.

Wire Marking | **Made Easy**

SHRINK TUBE

DuraLabel shrink tubing is flexible and made of a specially formulated cross-linked polyolefin. It has a 3:1 shrink ratio and is highly flame retardant. Supply meets UL, CSA, and military requirements.

What Size Shrink Tube? Shrink tube sizes are based on the diameter of the open tube before shrinking. When laying flat for printing, the shrink tube will be approximately 1.5 times as wide as it's open diameter.

If you have:	Use:
8 Conductor Flat Silver Satin	1/4"
Duplex Fiber Cord (Zipcord)	3/8"
RG59 Coaxial Cable	1/2"
Category 5 4-Pair Twisted Pair	1/2"
AWG 16-22G	1/8"
AWG 12-18G	3/16"
AWG 10-16G	1/4"
AWG 4-14G	3/8"
AWG 1-12G	1/2"

LADDER SHRINK TUBE

Organize wire markers with ladder shrink tube, developed exclusively for the DuraLabel Toro. The shrink tubing is pre-cut into lengths of 2" and arranged on the roll similar to rungs on a ladder. The layout provides an easy-to-use format for creating sequenced batch files.
