Sunday 17th August 2014	The team received a call from West Midlands police to assist with the search for a missing lady in Halesowen. Five search teams from different areas were involved including Staffordshire, Severn Area, West Mids, Warwickshire and Leicestershire. After an extensive search of local parks and beauty spots, we are happy to report that the missing lady was later found safe in a local hospital. We all wish her a speedy recovery.	15	82
20/07/14	Continuation of the previous days search, again three SAR teams working together to try and find this missing high risk lady. Yet again after a full days searching, the missing person had not been located and the search was stood down by West Midlands Police. With members of the public from the local community now aware of the reported missing person, some new leads came to light which were fed back to the police for inclusion into the planning process and the ongoing search.	5	40
19/07/14	SSART received a call to assist West Midlands SAR and Warwickshire SAR with the search of a 52 yr old, high risk missing female in the Wythall area of Redditch. The search included areas where there were a number of identified water hazards and risks together with woodlands and both urban and rural search areas. Team members operated throughout the day in a mixture of both torrential rain and brilliant hot sunshine, until the search was suspended overnight.	7	45
07/07/14	The team responded to an early evening call out by Staffordshire Police to search for a missing high risk female in the Knypersley area of North Staffs around a well known beauty spot. The missing female was later located about two hours later by Staffordshire police officers well out side of the designated search area. Twenty eight team members responded to the call and a significant number of areas had been searched prior to the missing person being located.	28	64.5
19th June 2014	After a very busy Wednesday the Team were called out by Staffordshire Police to search for a high risk missing female at 1 o'clock in the morning in the Tamworth Area. Police requested bank search trained members to attend. As the first members arrived on scene the team received a stand-down from the Police Search Advisor as the missing female had been located safe and well.	11	16.5
18th June 2014	Team called out to assist with the ongoing search for high risk missing female in the Brownhills area, near Chasewater. Team searched all day in extremely hot weather before being stood down by the Police Search Advisor. All areas searched with nothing found. Members then returned to HQ to continue with their normal Wednesday evening training.	12	84
9th May 2014	Team called out Monday evening to assist West Midlands Police with a search for a high risk missing female in the Brownhills Area. All search areas covered with team being stood down late in the evening with nothing found.	27	127

13th May 2014	SSART was called by West Mids Ambulance Service (WMAS) to assist with the recovery of an injured female on Cannock Chase. A Team vehicle and equipment was deployed to evacuate the lady who was suffering with a leg injury. She was later transferred by ambulance to a local hospital where we wish her a speedy recovery.	10	55
10th May 2014		23	247
9th May 2014	01:24hrs team called out by Staffordshire Police to search for a missing male in the Leek area of North Staffs. The missing male was found deceased by police officers shortly after team members started arriving on scene. Following the police investigation the team assisted with the recovery. All our thoughts go out to the man's family at this time.	10	58
